

# Covid-19: Hospital & Clinic Readiness & Management

Is my hospital prepared for a Covid-19 outbreak? Increasing capacity through interconnected, up to the minute support for real-time decisions making

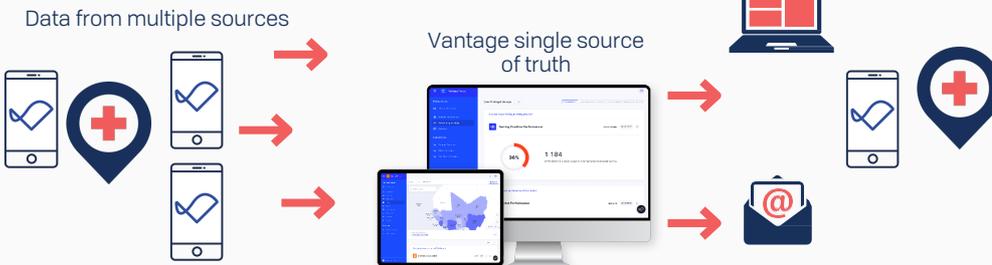

## How can we use health resources effectively?

As the Covid-19 pandemic sweeps the globe, hospital management and healthcare leaders must answer the questions: 'Are our facilities ready for an outbreak, where are the gaps and how do I make the right decisions, right now to save lives?'

## How does it work?

Connects multi-sources of critical information from pharmacy stock to personal protective equipment and facility management via a mobile app to offer leadership with a consolidated single overview, while AI recommendations drive active management and resource prioritization in real time.

## Targeted Action

### Coordinated action in real time

- Simple data multi-source data collection between departments
- Clear, integrated action recommendations for management
- Critical stock inventory management
- Real time, up to the minute and predictive
- Active and proactive Communication

### Rapid Implementation

- **Intuitive mobile** app for simple use
- **Rapid** onboarding via Virtual training
- **Instant** direct data uploads from thousands of sites

**1-2 days to implement across multiple sites**

### Realtime Information

- **Seamless** collation of key information from disconnected sources
- **Joins the dots** between departments
- **Creates** a single point of truth in real time

**350+ facilities uploaded in 48 hours of launch**

### Focus on impact

- **Prioritize** health hot spots and identifies gaps
- **Focus** the right resources on the right places
- **Inventory Management:** Predict future stock outs

**Top 10 hotspots instantly identified for prioritization**

### Proactive Communications

- **AI** generated analysis and visualizations for leadership
- **Proactive** alerts to guide action
- **On-going** staff education and two-way communication

**Targeted daily alerts to 1000s of field staff**

**It is not a question of if, it is a question of when the pandemic will hit our shores. We must capacitate our hospitals and clinics, we must be ready.**  
DR. ZWELE MKHIZE, MINISTER OF HEALTH, SOUTH AFRICA
