Certificate
- ✓ Invoices
- ✓ Original Documents
- ✓ And More...

*"e-z Cert has been of enormous help to Mothercare
in reducing time taken to produce documents."*

Paul Whiteman, Mothercare

Safe, Reliable & Fast

A browser based application, there is no software to install when you use e-z Cert and you can be printing approved certified documentation in your own office within an hour. All your documentation is created and stored within the e-z Cert cloud, giving you access wherever and whenever you need it, along with the piece of mind that your data is safe and secure with the latest technology.

How e-z Cert Works

①

Create and manage your documents, and when complete simply checkout for your Chamber of Commerce to review.

②

Your Chamber of Commerce will review and approve your documents, offering you a fully supported and speedy service.

③

Once approved, your documents can be printed at your office, or by the Chamber of Commerce for collection or to post to you.

Getting Started

What does it cost?

One of the great features of e-z Cert is that it is free to use. The only charges are the Chamber of Commerce fees for the documents you submit for approval.

Making e-z Cert a faster and more effective way to get your documents certified.

Register with e-z Cert

The registration for e-z Cert is free and it only takes you a few moments. So you will be up and running in no time at all.
