ABOUT THIS SERVICE

Our Defender for Identity Professional Security Services is your answer to the critical challenge of safeguarding all users from identity threats within Azure Active Directory. Using your existing Microsoft Security investment, we mitigate the risks associated with anonymous IP address use and password spray. We not only provide the solution but also equip your team with implementation instructions and customized configurations, simplifying your security infrastructure for streamlined management.

BENEFITS

- Proactively detect identity compromises.
- Minimize the risk of brute force attacks and credential stuffing.
- Complete protection of your Active Directory environment.
- Ensure that endpoints are logging into your SIEM for enhanced reporting.
- Save time and resources with a centralized platform.
- Maximize your Microsoft Security ROI.

WHO WE ARE

As the winner of Microsoft Canada's Security Impact Award, Difenda stands as the most trusted provider of Microsoft Security services. Difenda accelerates, performs, and validates your Microsoft Security technology, meeting you wherever you are on your cybersecurity journey to maximize your outcomes.
