

BRIDGE THE GAP. MASTER INTEGRATION.

BUILD A BEST-IN-CLASS INTEGRATION PLATFORM TO TURBO CHARGE YOUR DIGITAL TRANSFORMATION AND UNLEASH INNOVATION.

INTEGRATION DONE RIGHT WITH AZURE INTEGRATION SERVICES

Integration is the linchpin of modern enterprise architecture. Ensuring seamless data flow and process orchestration across disparate systems, while adhering to security and compliance standards, is critical yet challenging. Our Integration Done Right solution simplifies this journey by offering a robust integration platform leveraging Azure Integration Services. It lays down a solid foundation for you to design, deploy, manage, and monitor your integrations, ensuring they are scalable, secure, and aligned with your business objectives.

WHY CUSTOMERS CHOOSE THE INTEGRATION DONE RIGHT SOLUTION ACCELERATOR

This 10-week engagement is relevant if you:

- Are looking to initiate or consolidate an integration strategy within your organisation
- Need a scalable and flexible integration platform to evolve with your business needs
- Aim to accelerate integration delivery and enable organisational agility
- Want to benefit from enhanced developer productivity and reduced time to market

DESIGN YOUR PLATFORM

- Understand key business drivers and integration requirements
- Establish a standardised integration architecture
- Evaluate and select appropriate integration technologies

Design of right fit platform, built on a foundation of DevOps and Infrastructure as Code, enabling you to design, deploy and manage all integrations

DEVELOP AND INTEGRATE

- Deploy the Integration Done Right solution
- Develop the first integrations on the platform
- Ensure integrations are correctly deployed, secured, and scalable

Acceleration of development and deployment of integrations, empowering your developers to work efficiently and effectively

MONITOR AND SCALE

- Monitor the performance and availability of your integrations
- Additional integration deployments onto platform
- Configure additional regions for high availability and business continuity

Monitoring, management, and operation of your integration platform with the assurance that it is built on best practice design and experience

Arinco achieves the best outcomes by amplifying, partnering and working with your existing teams
