Acuvate's Generative AI Center of Excellence (COE)
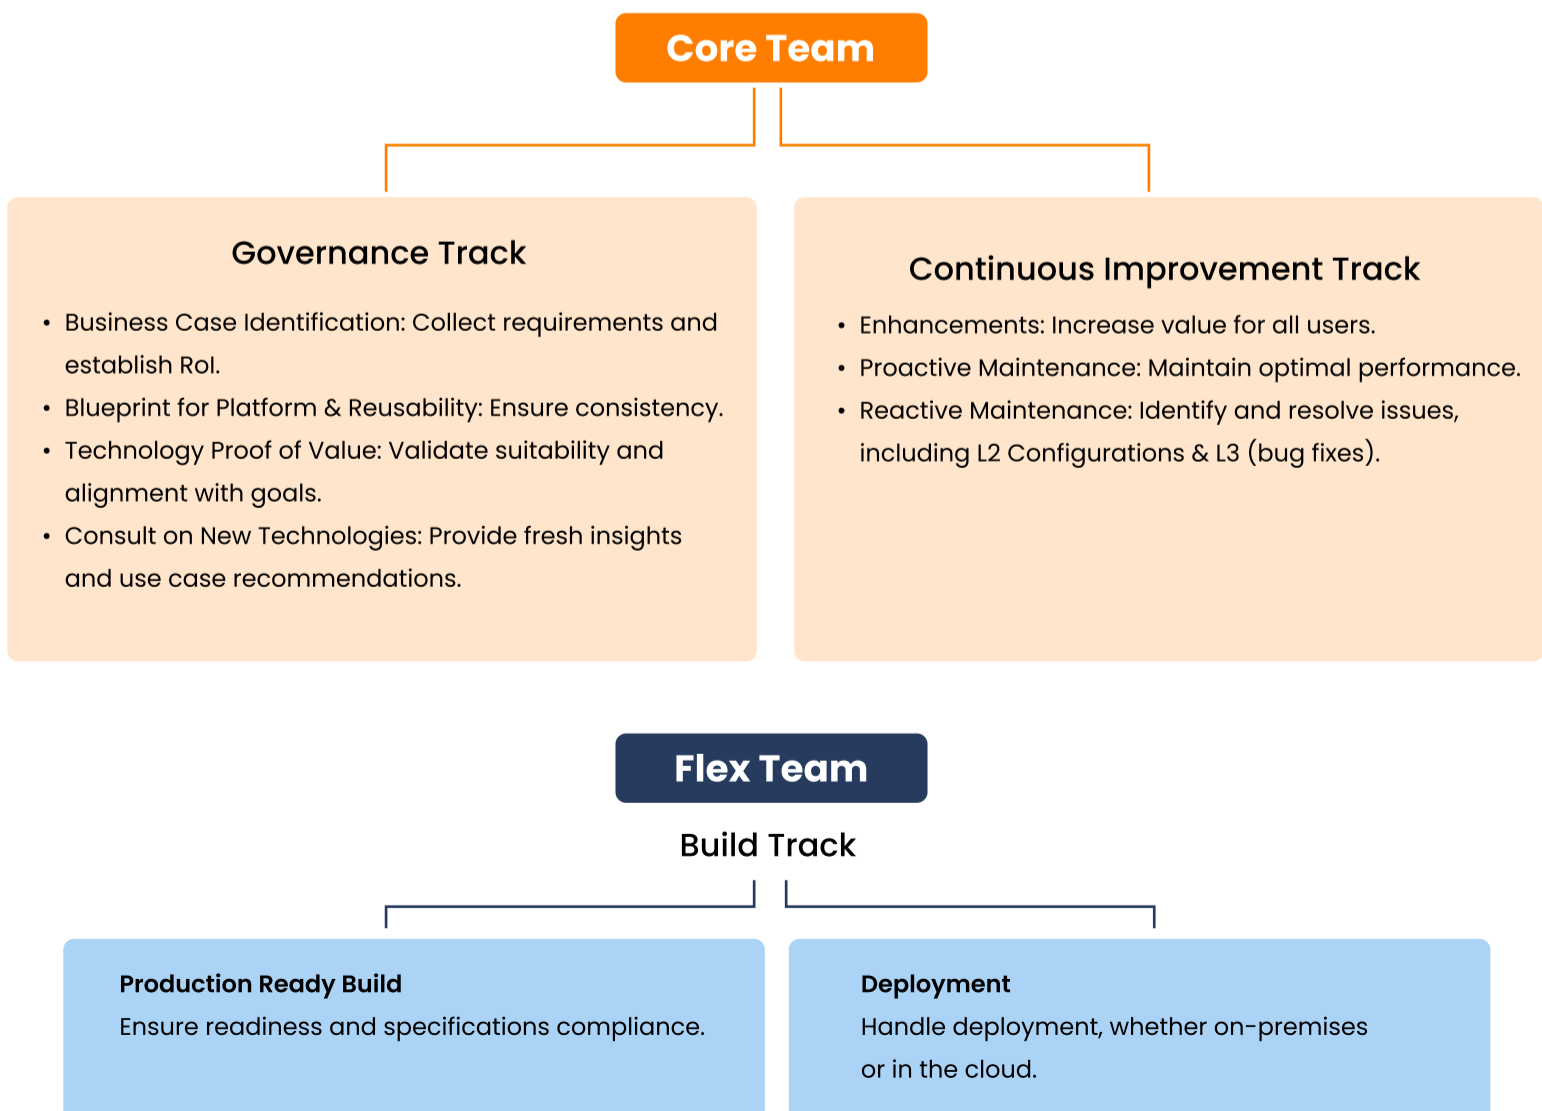

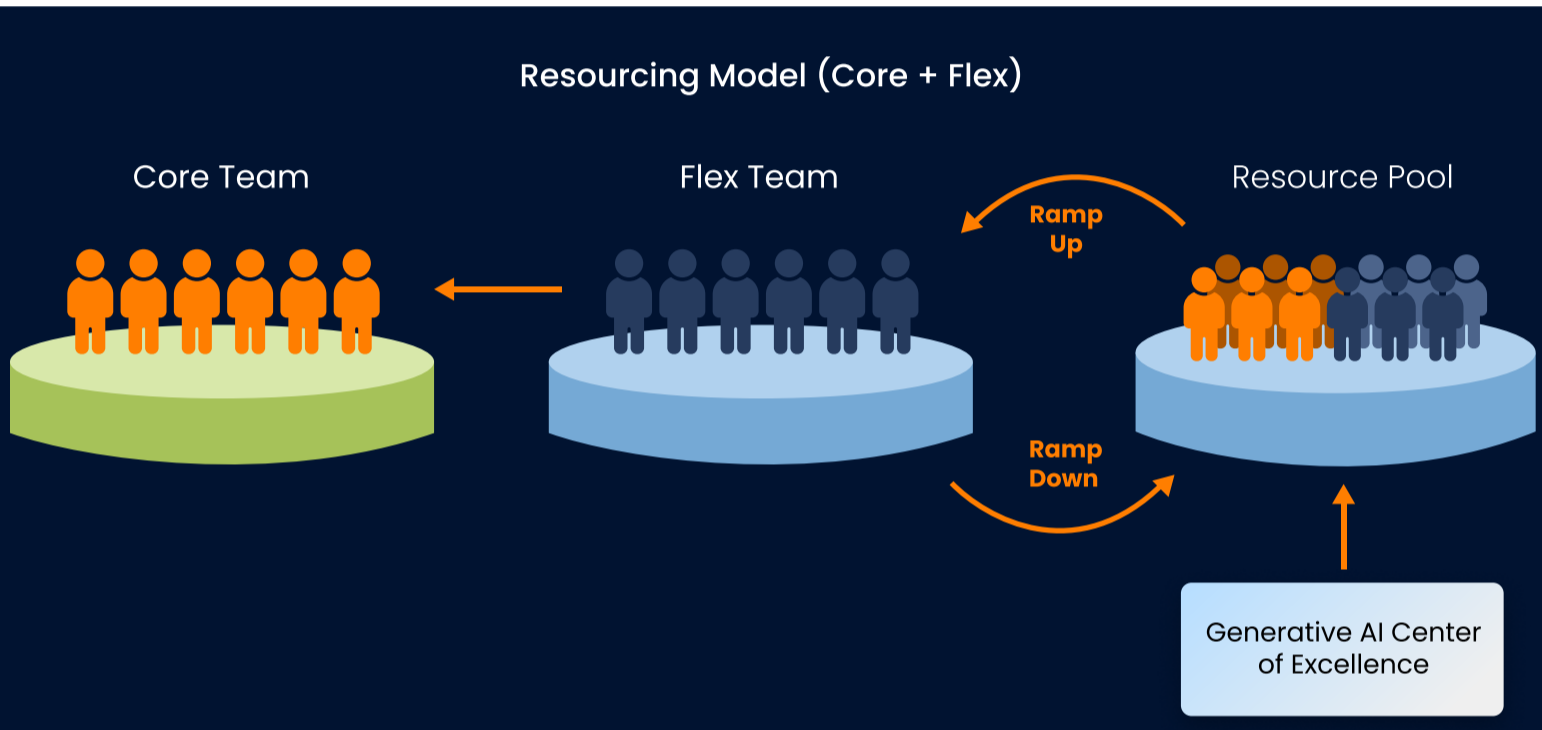

End to End AI Driven Workplace Transformation

Introduction

Empower your business with the strategic advantage of Azure OpenAI through our Generative AI Center of Excellence (COE) Service. It is established to enhance efficiency by focusing on crucial processes, technologies, or applications. With Generative AI rapidly transforming industries, staying ahead requires a comprehensive and structured approach to Generative AI implementation. Our COE Service is designed to help drive your successful Generative AI adoption enabling cost savings, fostering innovation, and minimizing risks.

Generative AI CoE Engagement Model

The Gen AI CoE Engagement Model follows a Core Flex approach to optimize resource utilization and minimize costs, ensuring stability and agility simultaneously.

Resourcing Model (Core + Flex)

Core Team   Flex Team   Resource Pool

Generative AI Center of Excellence

Core Team

Governance Track

- Business Case Identification: Collect requirements and establish RoI.
- Blueprint for Platform & Reusability: Ensure consistency.
- Technology Proof of Value: Validate suitability and alignment with goals.
- Consult on New Technologies: Provide fresh insights and use case recommendations.

Continuous Improvement Track

- Enhancements: Increase value for all users.
- Proactive Maintenance: Maintain optimal performance.
- Reactive Maintenance: Identify and resolve issues, including L2 Configurations & L3 (bug fixes).

Flex Team

Build Track

Production Ready Build
Ensure readiness and specifications compliance.

Deployment
Handle deployment, whether on-premises or in the cloud.

The AI CoE engagement Model's approach of maintaining a stable core team and augmenting it with a flexible team to meet varying demands, thereby optimizing resource utilization, and minimizing costs.

Outcomes

Streamlined Processes
Reduce manual interventions, enhance operational efficiency.

Competitive Advantage
Innovate faster, make data-driven decisions, and offer personalized experiences.

Risk Mitigation
CoE's autonomy insulates it from immediate business risks, ensuring focused development and reduced unforeseen challenges.
