

Trained organisations are 80% faster to adopt cloud and 3.8 times more likely to meet cloud ROI requirements.

- IDC

Why cloud training.

- The right skills are a critical part of digital transformation
- Cloud solutions require **new ways of thinking**
- You need to understand technology to get the benefits
- Transformation isn't only about changing technology – processes and people are as important
- An organisation consists of individuals, so to enable **cultural change**, everyone needs training on new ways of thinking and working
- Recruitment is more expensive than upskilling existing talent – and leads to higher employee engagement

Why Nordcloud training.

You learn from cloud natives who live and breathe cloud. This means Nordcloud training truly enables your organisation to:

1. Respond to market changes in real time
2. Deliver digital projects that are more secure – faster and with lower costs
3. Access new innovations by utilising public cloud more effectively
