

Asset Manager

This powerful solution transforms how you manage your assets, developed with Dataverse and Power Apps. Asset Manager empowers organizations to effortlessly monitor and manage a diverse range of assets, including computers, mobile phones, cameras, monitors, and more.

With "Asset Manager," you fully control maintaining an organized inventory that your employees also have visibility into. Easily track asset locations and manage their current lender in real-time. The integration of QR codes simplifies tracking, providing instant access to the app and improving the efficiency of your asset management process.

Technologies used:

Dataverse

Power Apps

The screenshot displays the 'Asset Manager' interface with the following data:

Image	Asset ID	Name	Asset Status	Assigned To	Category	Sub-Category	Department	View	Edit	Delete	Select Asset for Print
