

PSCORE

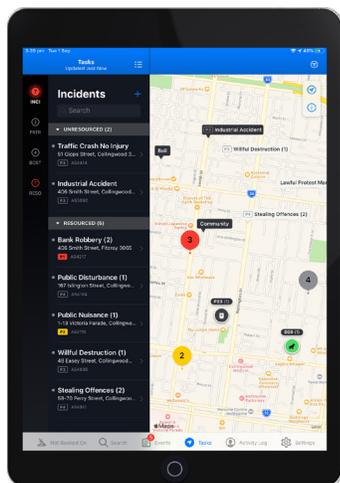

INNOVATION FOR THE FRONT LINES

Public safety personnel are faced with complex challenges every day and are often limited by technology to efficiently respond, complete tasks or reports, and get back to the field. Remove the limitations of your technology on the front lines to help responders be their best by working more efficiently.

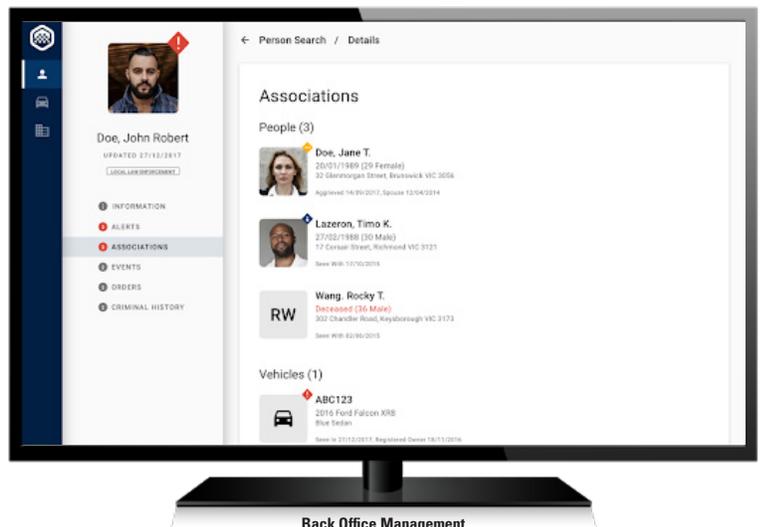

PSCore, a customized digital mobility solution with proven results for public safety, delivers digital tools and critical real-time intelligence for ongoing operational agility for your field-based workforce. With PSCore, first responders utilise a purpose-built application that integrates with your existing back-end systems to help them respond quickly, complete tasks faster and keep the community safer.
