

# POWER PLATFORM GOVERNANCE ASSESSMENT

Analysis and assessment of your environment and license settings

The audit process is aimed at verifying the implementation of Power Platform and preparing a recommendation report including topics:

## Power Platform Overview

- Including Power Apps, Licenses, Connectors, Makers, roles and permissions and more

## Environments

- Overview of your environments architecture and monitoring recommendations

## Alerts

- Recommendations for set up sharing alerts, reporting and mitigation

## Data Loss Prevention Policy

- Recommendations for establishing tenant and environment-level DLP Policies

## Best Practices

- Microsoft best practices, whilst adhering to business and IT compliance standards

## Next steps

- Defining task priorities and an initial action plan

## What we offer

- Review data in the Power Platform Admin Center
- Clean up environments
- Automate access requests
- Manage and assign licenses
- Manage orphaned and unused solutions
- Utilize Center of excellence starter kit data in Dataverse

## Governance Assessment Areas:

### MANAGE

- Applications Lifecycle Management (ALM)
- Plan and manage license and capacity
  - Deploy solutions

### MONITOR

- Analytics
- Management connectors
