

DISCOVERY CONSULTATION:

BUILD AND MODERNISE CLOUD NATIVE APPS

Free of charge Discovery Consultation (3H). Our team quickly evaluates your App modernisation goals and deliver a cloud native platform development roadmap & recommendations report.

ABOUT THIS SERVICE.

Our 'Build and modernise cloud native apps' discovery consultation takes your organisation's strategy of adopting cloud native and turns it into a clear plan of action.

Our consultation is specifically designed to provide you with a recommendations report and expert advice from highly specialised Azure cloud native engineers.

Ensure a seamless transition that aligns with your business requirements and technical objectives, guaranteeing both smoothness and security in your adoption process.

WHAT WE OFFER.

We'll begin by defining your business goals and evaluating your existing Azure environment, applications, operations processes and the technologies you use.

We will then compare the approach to industry good practice and our own established patterns and proven methods.

Following that, all findings will be then presented and documented in a recommendations report.

During the consultation, we will ask a series of crucial but essential questions about your organisation, application portfolio and its underlying infrastructure. This input helps us evaluate at what maturity stage your Azure platform is and how ready your organisation is for cloud native adoption.

WHAT YOU GET.

Environment evaluation

Report with findings

Tailored recommendations

Clear roadmap and next steps

Cost-optimised strategies

Expert guidance

CHALLENGES.

1. Modernisation of legacy applications and systems
2. Business transition strategy lacking clarity
3. Limited capacity and/or Cloud and DevOps capabilities
4. Leverage DevOps, GitOps & IaC

BENEFITS.

- ✓ Define business goals, challenges and future plans
- ✓ Identify areas where you can optimise costs
- ✓ Enable collaboration and foster innovation
- ✓ Enhance security and compliance posture
- ✓ Adopt industry best-practices
- ✓ Be ready for modern application architectures

ABOUT US.

BlakYaks is a UK leading cloud native consulting, engineering, and managed service business that deploys and operates Microsoft Azure platforms and solutions entirely with code.

With deep Azure platform expertise and proficiency in GitOps, DevSecOps, Containerisation and IaC, BlakYaks offers end-to-end cloud native solutions, tailored to meet each customer's specific needs, with the goal of optimising costs, streamlining operations, and accelerating the journey to cloud native.
