

Offer Agenda

- Establish a business use case
- Agree to Deliverables
- Proof of Concept Execution

Offer Benefits

DSI will create a complete analytic model and dashboard for one of your business areas.

The content will have immediate business value and a foundation on which additional insights can be built.

- Define a common approach to connect different source systems in one semantic model
- Connect data from various sources including Excel, SQL Server, Spark, ActiveDirectory, Adobe Analytics, and more
- Learn how to plan for, and manage a growing Power BI environment
