

Artificial Intelligence Permanent Lab

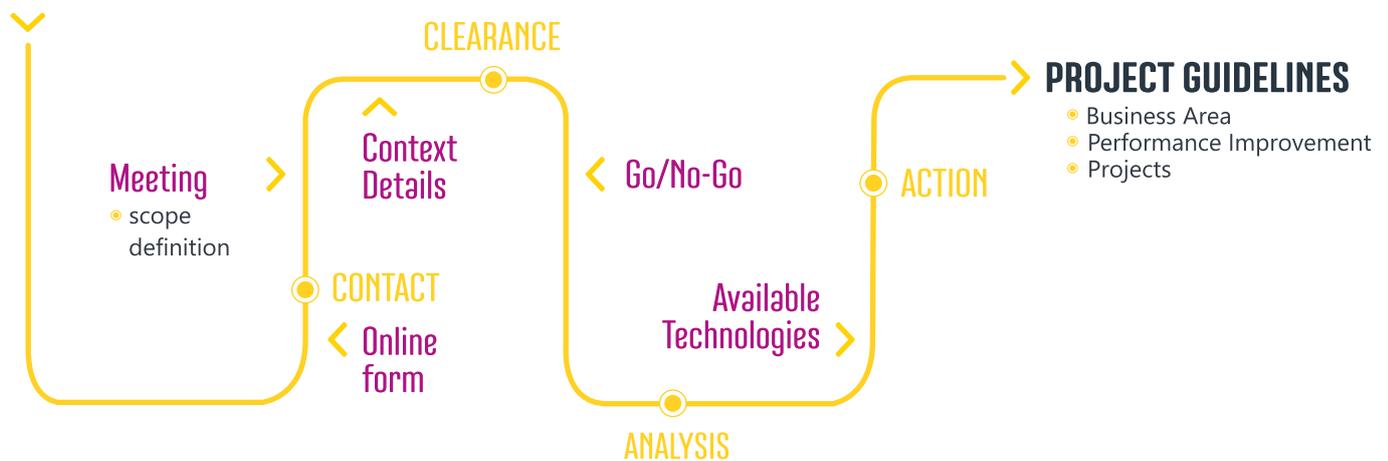

The mission of the AI Permanent Lab is to promote the application of artificial intelligence solutions, for Partners and Companies. The Lab discover and try the best **AI applications**, considering the context, the data, the business.

The collaboration between Agic Innovation and the University of Rome "**La Sapienza**" involve selected data scientists to go across the **two available**:

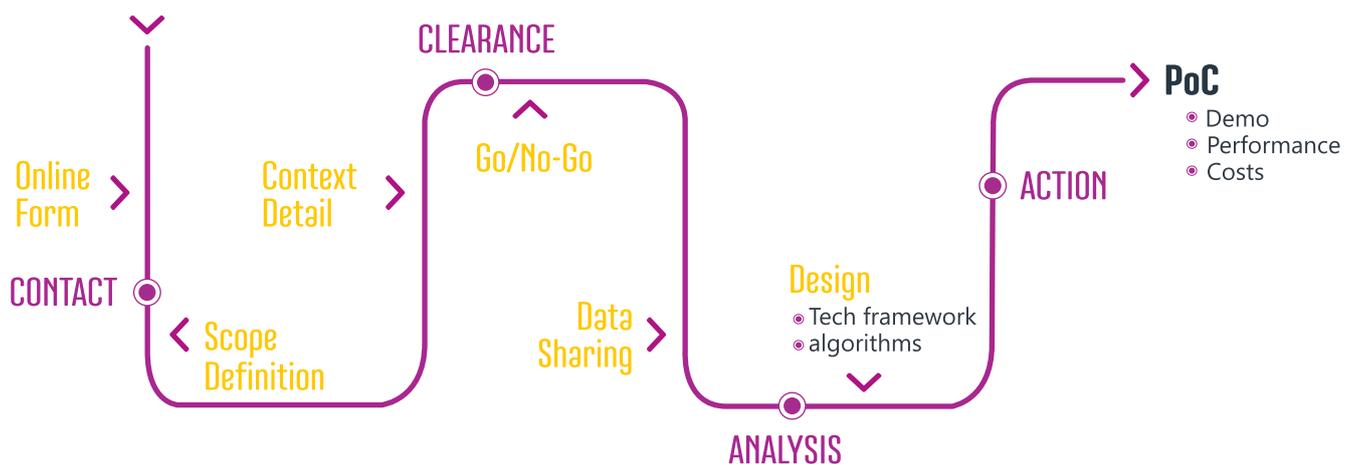

1. DISCOVERY

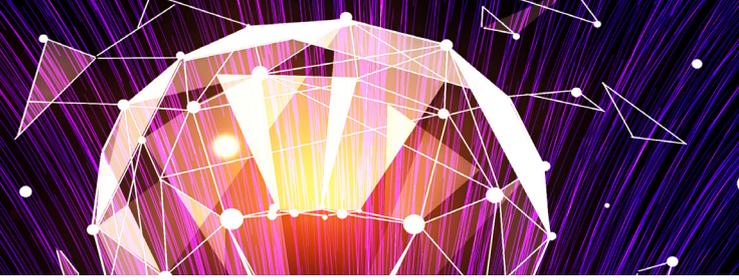

How to extract value from my own data?

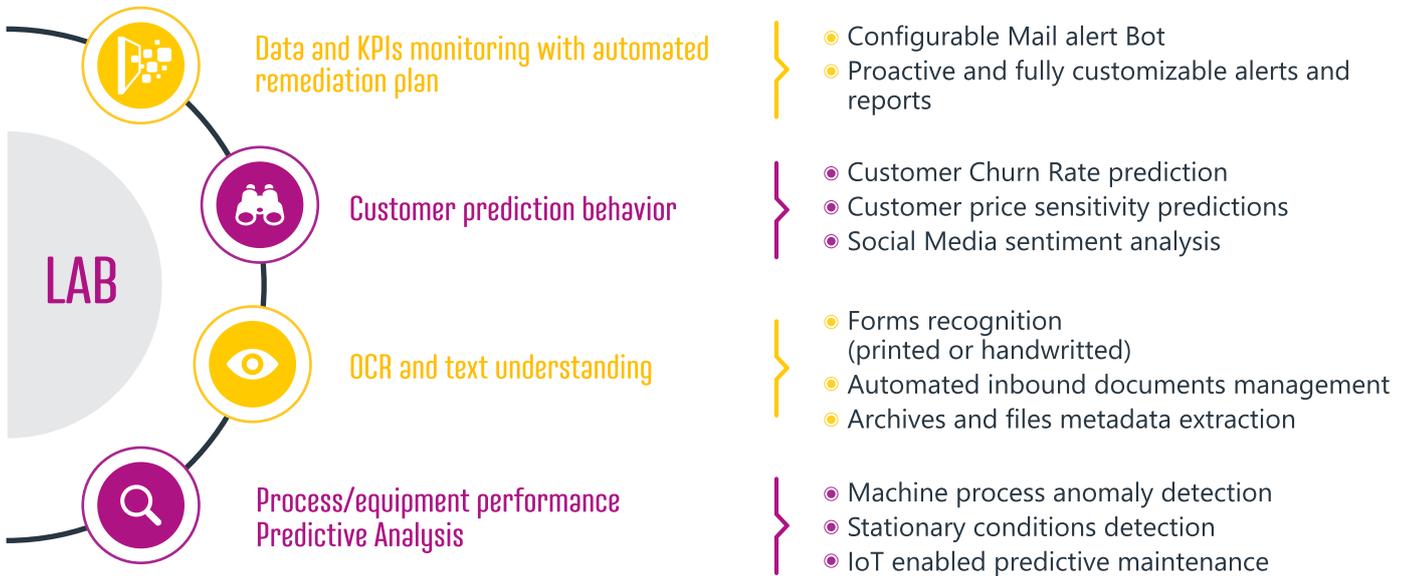

2. FEASIBILITY

I have a project idea. It could be real? How? At what cost?

COMMON APPLICATIONS

SUCCESS STORIES

DISCOVERY

Sector
Large scale Retailers

Data Type
Receipts

Outcome
23 opportunities

FEASIBILITY

Sector
Pharma

Data Type
Production Data

Outcome
-37% maintenance costs

FEASIBILITY

Sector
Horeca

Data Type
Receivable/ Payable accounts

Outcome
Up to 94% effective provisional Cash Flow

PoC implementation is the key point **before investing** in a pilot or an AI project

Why engage the AI Lab?

The AI Lab is acknowledged as an AI enabler by a wide audience of organizations.

Agic Innovation is **Microsoft one-team partner** in AI Solution identification and design.

The highly qualified personnel of Agic Innovation, assisted by **academics and Ph.D. students**, deliver both strong mathematical modeling and technical-architectural competencies.
