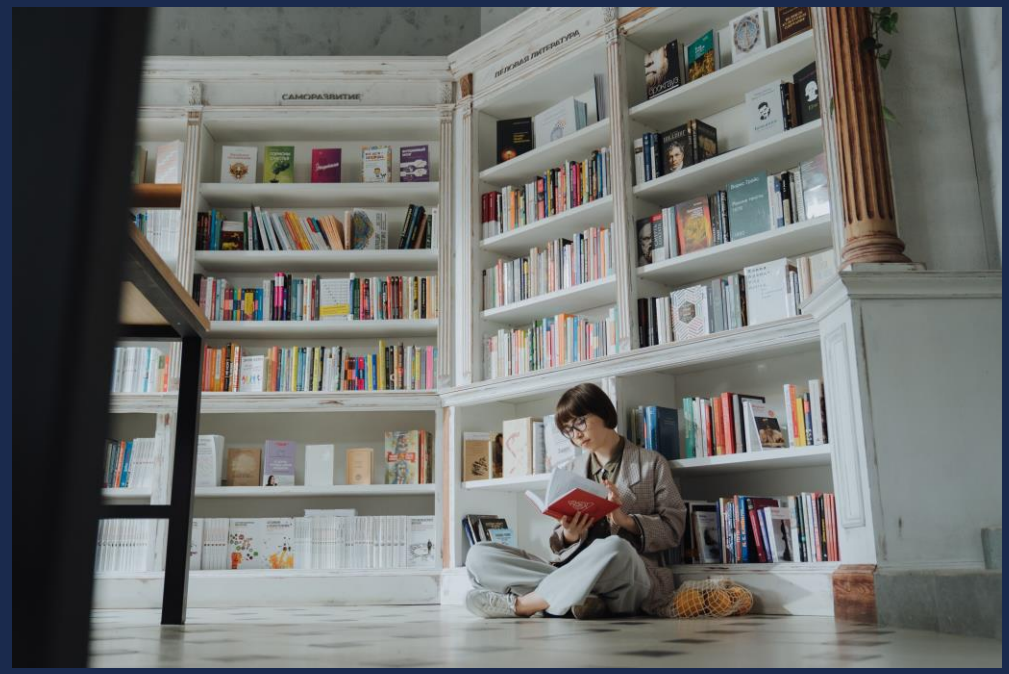
Microsoft 365 Copilot

Inspiration Workshop



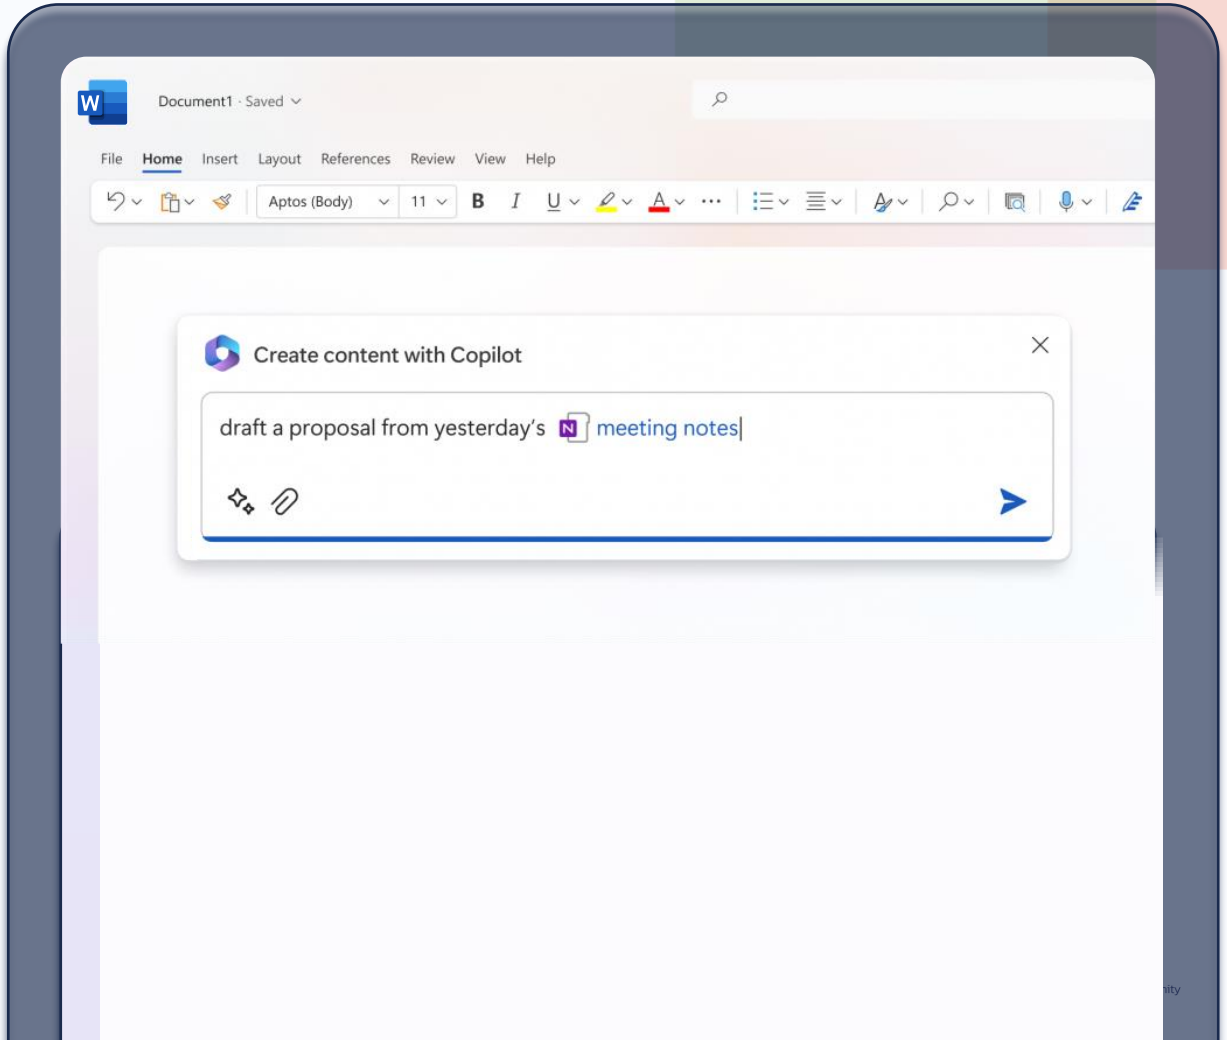
On the agenda

Part 1: Discover

The first part of the workshop will focus on the capabilities and features of Microsoft 365 Copilot through **real-world demos**.

Part 2: Get Ready

In the second part of the workshop, we will talk about the **prerequisites** of Microsoft 365 Copilot, and how to tackle the **data governance and security** questions you might have.



You'll be able to:

- **Understand the business value** of Microsoft 365 Copilot for your organization
- **Make sense of the features and capabilities** of Microsoft 365 Copilot
- Understand **how to get ready to implement** Microsoft 365 Copilot in your organization and discuss the repercussions on data security & privacy.
- Start thinking about your **user adoption and change management** strategy and how to create a roadmap to get started.
