

Microsoft 365 Copilot workshop

Based on business data, Microsoft 365 Copilot is your virtual assistant for unlocking creativity, enhancing productivity, and elevating your team's skills.

Through the Microsoft Copilot 365 workshop, you'll embark on a journey, diving into numerous demonstrations showcasing Copilot in action. Together, we'll explore real-world user examples, tackle challenges, and address pain points to pinpoint the most crucial scenarios for your team's success.

Prepare for Copilot: understand the requirements needed to ensure your data is secure and protected ready for Copilot

Assess your employee needs: identify the high value creativity, productivity, and skilling Microsoft 365 Copilot scenarios for your organisation

Accelerate outcomes using Microsoft 365 Copilot: showcase Copilot in real world scenarios

Develop a solution plan for enhancing: develop a plan to implement recommendations based on prioritised scenarios

Phases:

Assess:

Define scope, identify business stakeholders, and gather information on key business scenarios. Complete assessment, review scorecard, and share guidance

Art of the Possible:

Showcase the intelligence added to employee experiences by unleashing creativity, unlocking productivity, and levelling up skills (included in the demos)

Build a Plan:

Develop a plan to implement recommendations based on prioritised scenarios, define next steps, and agree a timeline to develop and implement the solution

Who should attend the workshop?

This workshop is suited to everyone within your organisation*.

*Please note: each session is limited to 30 employees and is delivered via Microsoft Teams
