Welcome to Power Clarity Starter Plan

With Power Clarity Starter, we simplifying CoE Power BI Dashboard implementation to within minutes by the following steps:

- Go to <https://powerclarity.app/>
- Click on LOGIN WITH M365 and login with your M365 credentials:

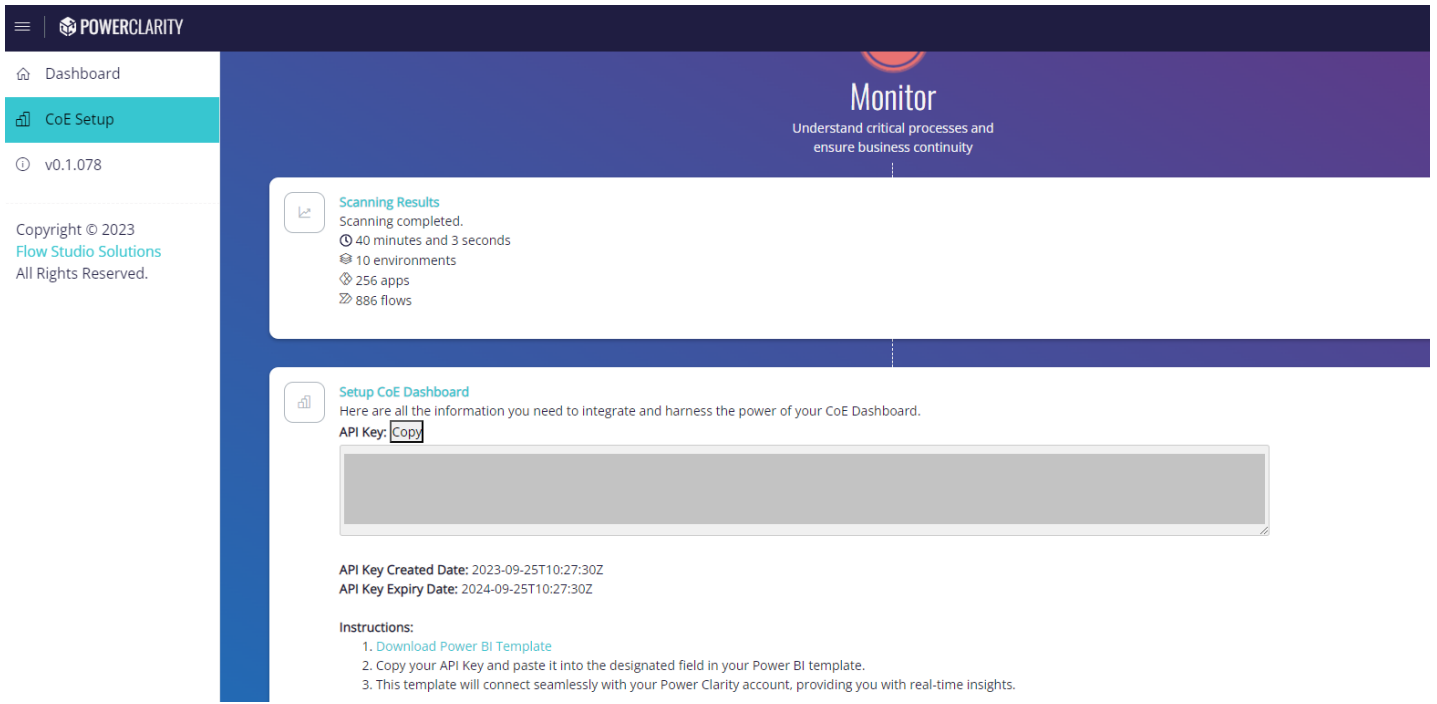

- If you are not automatically redirected to the main menu, click on LOGIN WITH M365 again to access the main menu
- At CoE Setup page, authenticate Power Clarity to scan your environments:

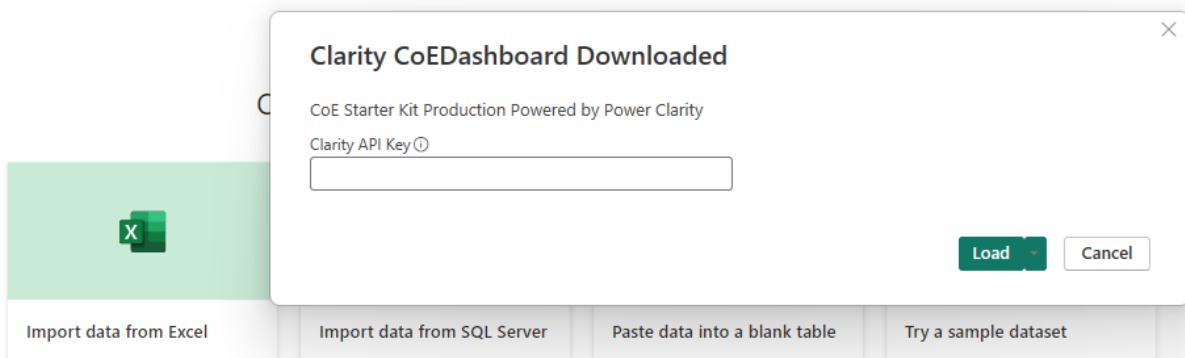

- Allow enough time for Power Clarity to scan through the Environments, Power Apps and Flows. The scan time varies depending on the size of your environments

- Scroll down to the Setup CoE Dashboard panel, copy the API Key and download the Clarity CoE Power BI Template:

- Open the Clarity CoE Power BI Template, and enter the API Key as the Clarity API Key, and click “Load”:

- If the initial refresh in Power BI returns error, srefresh the data again.
- You are good to go!

Note that because Power Clarity is designed for Power Apps and Flows governance, not all the pages in MS CoE Production Dashboard are included. You can expect to see the following pages in Clarity CoE Dashboard:

- Overview - Power Apps
- Overview - Power Automate
- Environments
- Makers
- Team Environments
- Apps
- Cloud Flows
- Custom Connectors
- App Deep Dive
- Flow Deep Dive
- Connector Deep Dive
- App Usage
- SharePoint Form Apps
- Power Apps Adoption
- Power Platform YoY Adoption

And the following pages in CoE Production Dashboard are not included :

- Overview - Power Virtual Agents
- Environment Capacity
- Desktop Flows
- Bots
- AI Builder Models
- Power Pages
- Solutions
- Business Process Flows
- Desktop Flow Usage
