ABOUT THIS SERVICE

Our Defender for Office 365 Professional Security Services addresses the challenge of safeguarding the technology your end users are already comfortable with. Using your existing Microsoft Security investment, we collaborate to ensure comprehensive coverage of all devices using Office 365 to minimize the risk of phishing and account compromise. We offer customized deployment and expert guidance to ensure comprehensive protection of your assets.

BENEFITS

- Safeguard the technology your end users are already using to minimize disruptions.
- Fortify email security against phishing and email compromise.
- Maximize Microsoft Security ROI.
- Centralize user and email security management.
- Ensure compliance with audit requirements.
- Seamlessly integrate with other security technologies.

WHO WE ARE

As the winner of Microsoft Canada's Security Impact Award, Difenda stands as the most trusted provider of Microsoft Security services. Difenda accelerates, performs, and validates your Microsoft Security technology, meeting you wherever you are on your cybersecurity journey to maximize your outcomes.
