

Create a unique online event experience for your users

Take your upcoming online and hybrid events to the next level. Thola offers a flexible and customisable digital environment where people from all over the world can connect, network, discover and exchange information.

Thola makes sure that you will be the perfect host, whether you are planning a virtual company gathering or a big international event. Discover our most valued features by our customers:

✓ Easy access

Our platform is easily accessible from any device with the web browser. This means that no installations are required which allows users to work on corporate devices. Next to that is Thola deeply integrated with Microsoft Teams for content or networking purposes.

✓ Endless networking opportunities

Attendees can easily connect with each other by means of chat messages, audio/videocalls, scheduled meetings, breakout rooms, virtual business cards or speed-date sessions.

✓ Wide range of content

Thola offers many options to transfer content to your participants. You can use a big screen to which you can add a livestream, live meetings or pre-recorded content. Next to that you can also integrate images, videos, websites, playlists and PDF documents in each room.

There is more!

Choose your own design

Personalise your event with custom room designs and avatars.

Flexible event hours

Define your preferred opening and closing times within 7 days. Extensions are possible.

Speed-dates

Stimulate online networking by setting up speed-dates between your attendees.

Live analytics

Both during and after the event you have access to all event related statistics.

Organizing our Launch Event in Thola was a great experience. We became quickly familiar with all the features of this user-friendly tool. Thola made our event more professional and interactive. We will definitely continue this way.
