

Azure Analytics Cost Management: 12 Week Implementation

Optimize your analytics spend in just 12 weeks with this implementation plan.

Tail Wind Informatics offers expertise in implementing an analytics cost-monitoring solution. We can identify usage trends and red flags, provide recommendations for data optimization, data governance, data discovery, tool selection, and more. Let us help you take control of your Azure analytics costs and make more data-driven decisions.

Deliverables:

- 12 Week Execution Plan
- Initial Assessment Report
- Cost Optimization Plan
- Custom Cost Management Reports
- Budgeting and Forecasting Tools
- Resource Tagging Strategy
- Final Assessment and Recommendations

*The duration may vary depending on selected deliverables.
