

Microsoft 365 Copilot Readiness Services

The power of everyday AI

Microsoft 365 Copilot® makes “everyday AI” possible in your organization by leveraging the power of your Microsoft 365® environment to enable end users to be more skilled, creative and productive. Microsoft has made bringing AI to your organization easy, but the promise of its usefulness and ROI are dependent on the state of your environment and your readiness to adopt this new technology.

If you have concerns about your data, governance, adoption, security, privacy or compliance, you are not alone. Optimizing your Microsoft® 365 ecosystem and preparing your organization for AI are integral parts of success.

Drive success with the help of a trusted partner.

Insight can guide you on your Microsoft 365 Copilot journey with the help of our more than 1,500 dedicated Modern Work professionals who have been working with clients to optimize their Microsoft environments for over 20 years. Whether you have invested and are planning an implementation, or if you just want to learn more about Microsoft 365 Copilot and how it can help your organization, our experts can help you across your environment and with all your needs.

Let Insight help you determine your organization’s needs: from evaluating readiness and determining use cases, to securing your environment, deployment, adoption and more. Our capabilities and methodology for Microsoft 365 Copilot readiness are designed to address anything your organization needs to drive success, including:

Evaluation of organizational readiness

Security, privacy and compliance

Data estate evaluation and optimization

End-user adoption and ROI

Persona and use case development

License optimization and cost evaluation

Governance evaluation and best practices

Pilot and production deployment
