

ADOPT GITHUB THE RIGHT WAY. THE FIRST TIME.

Accelerate your organisation's GitHub adoption and build like the best

ACCELERATE INNOVATION WITH GITHUB AND OPERATE YOUR APPLICATIONS IN THE CLOUD.

GITHUB DONE RIGHT WITH AZURE

Cultivating a DevOps culture inside an organisation can be challenging even more so without the right toolset in place. GitHub removes this obstacle and accelerates innovation with the platform developers love. From security to CI/CD, GitHub makes it easy to automate every step of your software workflow. With Arinco's expertise in GitHub and Azure we will empower your team with a way to adopt GitHub and operate your applications on the Azure cloud so your team can stay focused on what matters most.

WHY CUSTOMERS USE THE GITHUB DONE RIGHT ACCELERATOR

This engagement is relevant if you:

- Empower developers to build more secure software, faster using their go-to platform and processes
- Improve time to market by automating your pipeline from start to finish, including powerful, flexible CI/CD native to GitHub
- Gain peace of mind with natively integrated security features that help identify, resolve, and prevent security vulnerabilities as early as possible
- Need assistance with GitHub adoption and migration paths

ADOPT AND COLLABORATE

Understand key strategies to adopt a smooth glidepath to GitHub.

Work seamlessly across your organisation with GitHub Projects, Issues, Discussions designed for tracking deployments and collaboration.

Understand how to best plan your deployment and redefine collaboration between teams

EMPOWER DEVELOPMENT

Get developers up to speed quickly with the platform they already know and trust.

Leverage the GitHub marketplace and open-source software to enhance integrations into your code.

Increase velocity and empower your developers to start working quickly and effectively

AUTOMATE AND OPERATE

Build CI/CD pipelines to automate the deployment of your code with GitHub Workflows and GitHub Actions.

Improve and maintain the quality of your code by leveraging GitHub Advanced Security features to identify issues before they hit production.

Automate, operate and secure every step of your deployment onto the Azure platform

Arinco achieves the best outcomes by amplifying, partnering and working with your existing teams
