We deliver digital services that help our customers with strategic execution through proactive advisory and the implementation of innovative digital solutions:

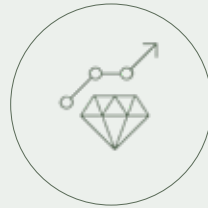

Digital Advisory

- Business development & Process optimization
- Enterprise architecture consulting
- Cloud & Data strategy
- Organization & Change management
- Technology & Platforms

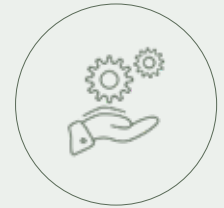

Solution Delivery

- Program & Project management
- Solution design & development
- Agile delivery teams
- Testing, QA & Deployment

Digital Excellence

- Organizational onboarding
- Platform training & Enablement
- Analytics & Insights
- Personalization & Automation
- Experience optimization

Managed Services

- Proactive monitoring
- Application Management
- Cloud Operations Service & Support (24/7) DevOps

CLOUD READINESS AND MIGRATION ASSESSMENT

Let Immeo analyze your infrastructure for migration readiness and discover, which workloads and solutions would benefit by being migrated to Microsoft Azure.

Immeo provides a technical assessment to customer’s on premise workloads and mission critical solutions, which contains a customer specific technical cloud migration readiness assessment of agreed scope through a series of onsite and virtual workshops along with Q&A sessions with Immeo’s experienced Microsoft Azure architects.

In this assessment Immeo will review your current state of your on-premise workloads and applications as well as identify the essential integrations and dependencies of your existing infrastructure setup. This will form the basis of an assessment report, which will present recommended architecture design, workload migration candidates and define a technical backlog.

Assessment includes:

- Kick-off / introduction workshop
- Implementation of Azure Migrate for data collection
- High-level categorization and classification of defined scope
- Rightsizing of setup
- Analysis of top 10 candidates for migration
- Estimation of migration cost and Azure cloud spend
- Presentation of report, incl. cost for Managed Cloud Services

BUSINESS BENEFITS AND OUTCOME

Insight

Get full overview of your current infrastructure and issues, that need to be solved before the migration process.

Skills and capabilities

Gain insight into the technical resources required during the migration process.

Business continuity

Predict the disruptions that will occur during migration and plan for them to minimize the negative impact on the organization.

Cloud and Managed Services Requirements

Understand the requirements to meet in terms of Microsoft Azure services and the tiers of Managed Services you need.

Performance

Get an estimate for your migration budget.

Justification

Provide a business case justification for your cloud migration.

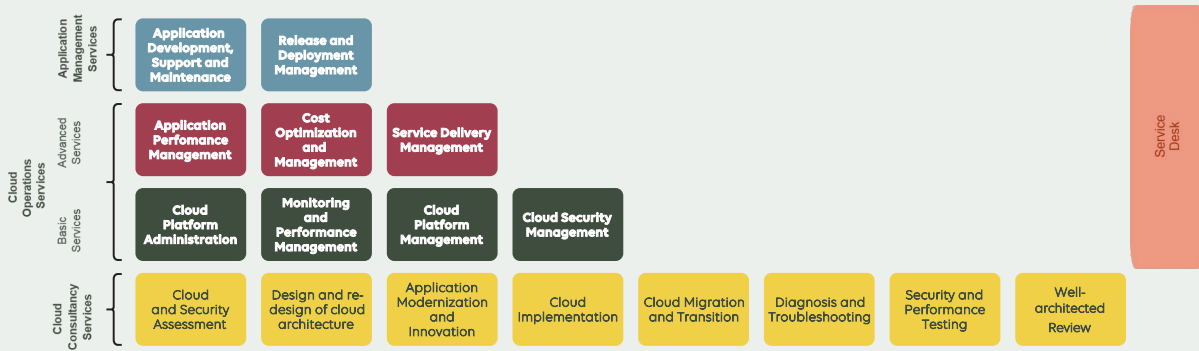

We create digital solutions that empower people and business

IMMEO MANAGED SERVICES

Service offerings overview

CLOUD CONSULTANCY SERVICES

Immeo provides a variety of consultancy services in order to assist the customers, no matter where they are in their cloud journey.

The **Cloud Readiness and Migration Assessment** report will present migration options for each workload and solution, and detail the challenges including your integrations together with the migration paths of hosting and operating your different workloads and solution on Azure.

The report will furthermore outline the estimated cloud cost for the different workloads and solutions which are chosen and in scope, together with a migration plan containing timeline, onboarding processes and procedures including the level of participation required from you.

The report will finally contain a description of the go-live transition cloud and a recommendation to a cloud operating model regarding managed services for hosting, supporting, maintaining and optimizing your workloads and solutions on Microsoft Azure.
