AI-Powered Contract Management for Enhanced Efficiency

Addressing Real Needs with AI

Contract Understanding is designed to cater to all industries, offering comprehensive contract visibility that helps you stay ahead of your obligations and never miss another renewal or commitment. **Backed by Artificial Intelligence (AI)** and machine learning, Contract Understanding effortlessly analyzes and extracts key fields, enabling you to manage them seamlessly through an intuitive workflow engine.

In response to the often-neglected post-signature contract management, Contract Understanding with **AI tackles the challenge** of managing benefits and obligations written into contracts. Instead of letting valuable terms go unnoticed, our solution ensures that your contract investments are actively utilized and respected.

4 Easy Steps to Streamlined Contract Management

1. Sign Up

Get started instantly with a free trial. No installation or implementation costs.

2. Upload Contracts

Effortlessly upload your contracts and let our AI extract the crucial information.

3. Receive Alerts

Stay informed with timely alerts about key milestones, like renewal and cancellation dates.

4. Follow Workflows

Customize workflows to match your business operations' unique requirements.

Ensure you never lose track of the advantages and responsibilities outlined in your documents. Store, organize, and access contracts effortlessly in your dedicated contract database.

Who Should Use Contract Understanding?

Contract Manager/Administrators: Streamline management with automated notifications, reminders, and workflows.

Property Managers: Optimize property management by centralizing data, enhancing security, and automating processes.

Procurement Managers: Empower efficient procurement by tracking obligations, automating workflows, and ensuring compliance.

Financial Directors: Manage contracts with suppliers, service providers, and insurers while reducing financial risks.

Human Resource Directors: Efficiently manage contracts with staff, executives, and external parties, ensuring secure storage.

Heads of Risk Management: Effectively manage and mitigate risks in contracts through streamlined workflows and compliance.

Supply Chain Managers: Optimize contracts and supplier relationships, streamline workflows, and centralize data.

Operations Managers: Increase productivity, streamline workflows, and ensure secure access to contractual agreements.

Discover the power of Contract Understanding and take control of your contract benefits and obligations today.
