

OneVuex Unified Systems

A New Dimension in Cloud Computing

Experience the transformative value of AI, accelerate innovation and productivity, and defend your business at machine speed

OneVuex – Your Secure AI Powered Knowledge Network and Productivity Center

OneVuex unifies Microsoft and other vendor apps and platforms in a single interface, automating processes and integrating data so you can generate ideas and content faster for greater productivity.

Businesses today operate with disconnected silos of information, creating multiple productivity, collaboration, and security challenges that are costly to the organization.

OneVuex Unified Systems is an **AI powered digital knowledge network and productivity center** that intelligently integrates data, content, insights, contacts, and tech innovations (on-premises to cloud), displaying combined results in a single interface. With OneVuex, **generate ideas and content faster, complete time-consuming tasks, and gain AI driven insights** with **advanced security incorporating Zero Trust strategies.**

Achieve **40% greater productivity**, confident decisions, and a workplace **ready for change.**

Power of Integration

- **Create relationships between data** in different apps and platforms (Microsoft, IBM, Oracle, Salesforce, QuickBooks, SAP and more).
- **Controlled accessibility and mobility** of cloud and on-premises solutions, including legacy systems.
- **Secure collaboration** for effective file sharing and Teams meetings.
- **Achieve integrated security** across applications, platforms, systems, and cloud environments with Zero Trust architecture.

Powerful Teams

- **Adopt the latest in Cloud, AI, and other innovations faster and with greater ease.**
- **Achieve customized solutions that fit your** organization and users' needs.
- **Gain controlled access** to all **information, contacts, and communications.**
- **Accelerate productivity and training**, with powerful search tools and Digital Subject Cards.
- **Get complete insights** with **integrated GenAI** that sources content in all connected systems.

Powerful System Search

- **Get controlled, intelligent global access and multiple search tools** that find all related content in a single search without remembering filenames.
- **Accelerate productivity and never lose content** with AI powered search tools, Digital Subject Cards, and Topic Pages that find and connect all related content and contacts.
- **Verbal or one-word requests** saves hours of unproductive time on multiple searches.

Immediate Increase In Productivity

"OneVuex is the backbone of our operation. We increased productivity up to 40%...time that's now directed to members, generating more revenue. We're attracting new members and helping chambers that are 10 times our size."

- Dan Bates, President and CEO
Greater Hamilton Chamber of Commerce

With OneVuex Unified Systems, **outperform, outthink, and out innovate** your competition with powerful AI, integration tools, and security at machine speed.

What My Business Can Achieve With OneVuex

Picture this:

Innovation and productivity are challenging if you can't find, access, relate, or share information or easily integrate modern technologies.

You experience difficulties collaborating and gaining a complete picture of projects or organizational insights.

You struggle with safety and security in apps, platforms, devices, and the organization.

With OneVuex Unified Systems and Microsoft Solutions

Achieve customized solutions, enterprise search, and collaboration:

- **Generate better ideas and results** with integrated apps, platforms, and systems like M365, Microsoft Copilot, SQL, IBM, Oracle, Salesforce, etc., specific to your business needs.
- **Accelerate productivity and innovation**, accessing, sharing, and processing content in all connected solutions (on-premises to cloud) with powerful AI.
- **Stop searching, just ask OneVuex** to find all related information with **AI, Digital Subject Cards, and Topic Pages** without remembering filenames or their location.
- **Witness minimally 40% greater productivity** with teams that collaborate across multiple environments, incorporating AI tools that produce comprehensive results.

Work smarter with greater vision, anywhere on any device:

- **Work fluently across systems**, accessing all connected solutions with **controlled access** from a single interface and one log-in.
- **Collaborate anywhere** with an integrated view of systems, emails, shared calendars, meetings, and contacts synced across devices, in real-time.
- **Achieve greater insights and transparency**, gaining a complete view of the organization with real-time analytics and business intelligence reports live streamed in custom dashboards.
- **Experience greater productivity with AI, Digital Subject Cards, and automated Topic Pages** that connect related sources of information for quick accessibility.

Protect your organization at the speed of AI with Zero Trust Architecture:

- **Work safely**, managing projects on most devices, protecting information in all environments, on-premises to cloud.
- **Experience unmatched security** with the integration of multiple Microsoft security systems, including Microsoft Security Copilot – advanced security with AI and Zero Trust architecture, securing endpoints, end users, and infrastructure from on-premises to multi-cloud environments.
- **Protect all connected systems and devices** from cyberthreats like malware, phishing, ransomware, and viruses.
- **Monitor devices and people for added safety** with multiple layers of security, including geolocation.
