OneVue*x* – Advanced AI Technology for the Modern Legal Industry

Market disrupters created massive change in the legal industry impacting operations, client relations and public service. Pressures to control costs, increase efficiencies, and deliver quality legal services have skyrocketed. More attorneys are working remotely using video conferencing to conduct client meetings, litigations, and mediation. Courts use technology to submit court forms, e-file for benefits and court cases, and court appearances, prompting them to move their operations to the cloud. In the age of AI, transformative technologies like Cloud and generative AI have quickened the pace for AI | Digital transformation to provide greater operational agility; automated work processes; safeguarded remote access; and advanced security incorporating Zero Trust architecture to meet changing client and community needs.

OneVue*x* Corporation and Microsoft provide legal entities with the technology and innovation they need, creating personalized, dynamic digital offerings their clients seek. OneVue*x* makes it easy to achieve digital strategies with better business outcomes, delivering advanced computing power that is easy to use, customizable, adaptable to change, and secure, with less IT maintenance and operational expense.

OneVue*x* Unified Systems– Preparing the Legal Sector for the Digital Workplace

OneVue*x* is a **secure AI driven digital knowledge network and productivity content center** that intelligently integrates data, content, insights, and technology innovations like GenAI, displaying combined results through a single interface. With OneVue*x*, **generate ideas and content faster, complete time-consuming tasks,** and **gain AI driven insights** with **advanced security incorporating Zero Trust strategies.** Experience up to 40% more productive teams, reduce IT expenses, easily adopt innovative technology, and achieve adaptable, flexible systems, with powerful security that protects information wherever it resides.

OneVue*x* Unified Systems makes it easier to **outperform, outthink, and out innovate**, so market disruptions are an opportunity, not a threat.

Integrate information – on-premises to cloud	AI and enterprise search, finds info in all connected systems	Expand client engagement with secure remote access	Ensure employees, clients and systems are secure

What Your Business Can Achieve with OneVue*x*

OneVue*x* Unified Systems seamlessly integrates most computing solutions with flexibility to easily customize systems to meet your specific needs. OneVue*x* expands the capabilities of your existing technology while eliminating older, more costly systems elevating your organization to a new level of performance.

Picture this

Innovation and productivity are challenging if you can't find, access, relate, or share information or easily integrate modern technologies.

You experience difficulties collaborating and gaining a complete picture of projects or organizational insights.

Maintaining safety and security across disparate apps, platforms, devices, and systems is challenging.

With OneVue*x* Unified Systems and Microsoft Solutions

Achieve customized solutions, enterprise search, and collaboration:

- **Generate better ideas and results** with integrated apps, platforms, and systems like M365, Microsoft Copilot, SQL, IBM, Oracle, Salesforce, etc., specific to your needs.
- **Accelerate productivity and innovation**, accessing, sharing, and working with information in all connected solutions (Microsoft and non-Microsoft), on-premises to cloud, easily incorporating innovations like AI.
- **Stop searching, just ask OneVue*x*** to find all related information with **AI, Digital Subject Cards, and Topic Pages** without remembering filenames or their location.
- **Experience at least 40% greater productivity** with teams that collaborate across multiple environments, incorporating AI tools for greater, more confident results.

Work smarter with greater vision working anywhere on any device:

- **Work fluently across systems,** accessing all connected solutions with **controlled access** from a single familiar interface and one log-in.
- **Stay connected to teams regardless of location** with a 360° view of systems and operations, synched across devices in real-time.
- **Achieve greater insights and transparency** with a complete view of the organization**,** with real-time analytics and business intelligence reports live streamed in custom dashboards.
- **Experience greater productivity** with **AI, Digital Subject Cards,** and **automated Topic Pages** that connect multiple sources of information for quick accessibility.

Protect your organization at the speed of AI with Zero Trust Architecture:

- **Work safely,** managing projects on most devices, protecting information in all environments, on-premises to cloud.
- **Experience unmatched security** with the integration of multiple Microsoft security systems, including Microsoft Security Copilot – advanced security with AI and Zero Trust architecture, securing endpoints, end users, and infrastructure from on-premises to multi-cloud environments.
- **Protect all connected systems and devices** from cyberthreats like malware, ransomware, phishing, and viruses.
- **Monitor devices and people for added safety** including multiple layers of security, including geolocation, meeting all compliance standards.
