

# MAQ Software

*Bring the Power of AI to Data Visualization*

## About Us

MAQ Software delivers innovative software solutions for many, including Fortune 500 companies. Using the latest agile engineering techniques in a focused and disciplined manner, we accelerate software initiatives that enable our customers to transform their industries, whether that be technology, retail, energy, or even healthcare. We specifically focus on Data Analytics, Artificial Intelligence (AI), Machine Learning (ML), Data Modernization, Reporting & Visualization, Business Application, Modern Apps, and Cloud Services at our four state-of-the-art engineering centers located in Washington state in the U.S. and India. Through this, we help our clients build stronger customer relationships, drive sales, identify new opportunities, and analyze marketing results.

Our customers consistently recognize us for providing quality architecture and governance frameworks, implementing best practices to optimize reports, and building team capability through training programs. The daily software updates they receive, the agile practices we implement, the domain expertise we leverage, and the feedback we quickly implement are just a few other elements our customers benefit from.

## Azure Expertise

We have helped our esteemed clients shift data workloads from on-premises systems to an Azure cloud technology stack. Below are a few highlights:

Delivered and supported over **150 Azure cloud implementations** for Fortune 500 companies

Created robust Azure-based automation tools and utilities for efficient business operations

Exhibited expertise and excellence of projects working with technologies like Azure Data Factory, Azure Databricks, Power Platform, and Azure Synapse.

## Microsoft Advanced Specializations

- 1 Modernization of Web Applications
- 2 Analytics on Microsoft Azure
- 3 Data Warehouse Migration to Cloud
- 4 AI/ML on Microsoft Azure
- 5 Cloud Security
- 6 Low Code Application Development

## Our Services

## Azure Achievement

We work with a wide range of Microsoft technologies. Our experience has helped us tailor our processes and methodology to meet the needs of Microsoft groups effectively. Our clients choose to work with us because we exhibit time and cost-effective solutions with supreme quality

- ▶ Created an optimized cloud solution and evaluated the existing one against cloud best practices.
- ▶ Designed a migration strategy and migrated legacy on-prem enterprise solution to the above cloud solution.
- ▶ Leveraged Azure Synapse capabilities to process huge volume of retail data at a faster rate for better business decisions.
- ▶ Designed and delivered real-time reporting using Azure Event Hubs and Azure Stream Analytics in the Marketing domain.
- ▶ Implemented near real-time sentiment analysis of survey responses in the Events domain using Azure cognitive API.
- ▶ Implemented Azure Databricks stream data processing techniques to achieve near real-time reporting for enterprise sales data.
