# Has your company embraced Modern Work?

2020 accelerated innovation for many companies with employees working remotely. How did this impact the balance between security and employee experience?

**Let's find out with a Modern Work Assessment.**

**Modern Work** means supporting workers

- ✓ Any Time
- ✓ Any Where
- ✓ Any Device

# The Balance Framework

The secret to success in modern work is balancing **Endpoint Security** and **Employee Experience**.

Our **Modern Work Assessment** provides you unique insights into how your company is positioned today.

More importantly, we identify the areas where you can empower your employees to be **more productive** AND improve the **security posture** of all your endpoints.

## Modern Work Assessment

# Reveal your strengths and weaknesses

Each dimension is split into five categories and each category is scored on a **5-point scale**.

By the end of the assessment, you'll know your **current state** relative to industry best practice. You'll also be able to define a realistic future state.

The resulting report will help you prioritize your effort and **clarify** your message to business stakeholders.

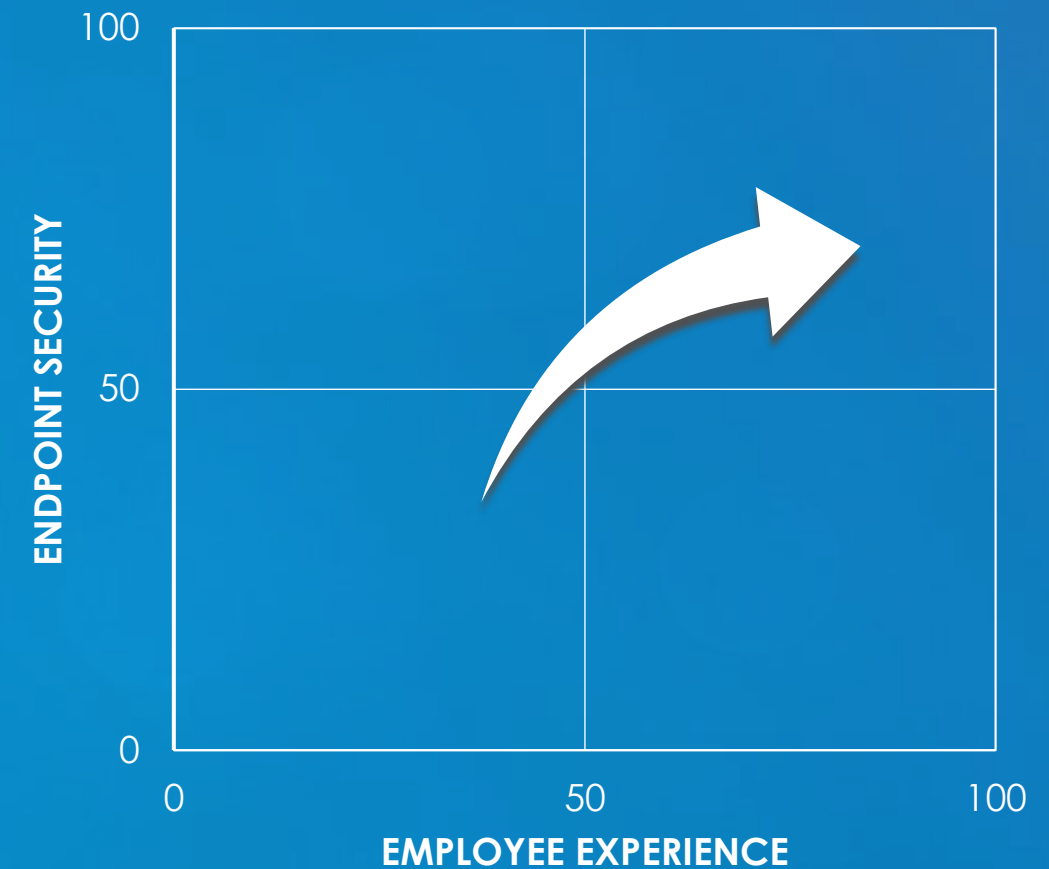

- 5 Transformational**  
Technology has changed the way you do business
- 4 Advanced**  
You are leveraging cutting edge technologies in most areas of the category
- 3 Efficient**  
You have switched to non-advanced modern technologies
- 2 Operational**  
You have turned on some modern technologies
- 1 Fundamental**  
You are exploring modern technologies or are using legacy technologies only

# Define Your Vision

Define **your future state using the balance framework** to articulate the journey ahead and the key priorities.

Our proprietary model lets you show business leaders the company's **current maturity level** and **desired maturity level** within a familiar **four-quadrant graph**.

## Modern Work Assessment

# Outline Your Priorities

Visualize your gaps clearly to determine the next steps to achieve the greatest impact with limited resources.

Use the report to outline your vision and priorities for both technical and non-technical stakeholders.

Show how you can simultaneously improve **endpoint security** and provide a better **employee experience**.
