Official Electronic Document

- ✓ Format in XML defined by the Mexican Standard NMX-I-305-NYCE-2016.
- ✓ Self-contained and portable.
- ✓ It guarantees the preservation of the content, the authorship and the no rejection of the subscriber.
- ✓ It allows the same use that is given to the Official Documents on paper.
- ✓ It can have the same graphic representation as on paper.

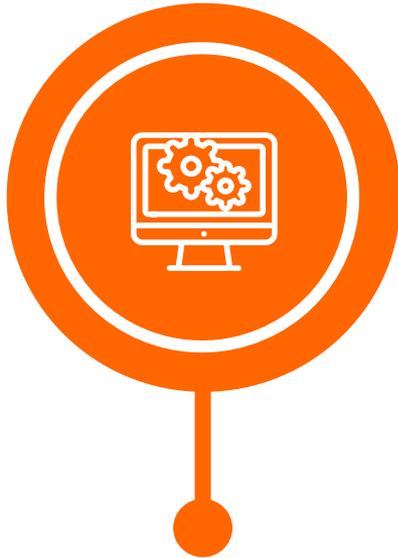

Nota: Equivalente funcional al Anexo 20 (Factura electrónica del SAT)

Extended universe for the use of the Electronic Signature

- Mexico has broad spectrum of regulations for the use of Electronic Signature
- The Electronic Signature is already typified in at least:
 - 9 Laws of Federal carácter including the Law of Advanced Electronic Signature
 - 4 Federal codes
 - 2 Federal regulations
 - 9 Agreements, circulars and general rules
 - 2 Rules issued by the Mexican Economy Ministry

The Advanced Electronic Signatures issued by the Mexican Public Function Ministry, Mexican Economy Ministry, Mexican Tax Administration among others are recognized under the X.509 estándar. The most important thing is that it recognizes it as a functional equivalence to the handwritten signature and avoids repudiation of it.

*Advanced Electronic Signature: The set of data and carácter that allows the identification of the signer, which has been created by electronic means under its exclusive control, so that it is linked only to the same and to the data to which it refers, which allows any subsequent modification of these is detectable, which produces the same legal effects as the autograph signature.

Supports single instance, private commuty and multiple instances shemes, implementing all the interoperability operation specified in the Mexican Estandard NMX-I-305-NYCE-2016.

Enables the construction of Official Electronic Documents implementing all the features specified in the Mexican Estandard NMX-I-305-NYCE-2016.

Enables different electronic signature processes supported by the Mexican Standard NMX-I-305-NYCE-2016:

- Letter closing
- Author signature / approval signature
- Authorizations
- Attaches signature
- Notification signature
