**Rapidly deploy your  
Intranet & Digital Workplace  
and optimize your use of  
Microsoft 365**

# Efficient together

With Jalios Workplace, make communication and collaboration more efficient and sustainable.

The Intranet becomes the single point of access to :

- **Facilitate** access to both Microsoft 365 and business applications that are used on a daily basis.
- **Streamline** the user experience by aggregating and contextualising information from Microsoft 365 and other systems (EDM, HRIS, CRM, ERP, etc.)
- **Extend** your possibilities with more functionalities on top of Microsoft 365 (web and mobile portal composition, collaborative curating, digital learning, collaborative FAQ, idea box, etc.)

## A Digital Workplace for everyone

Jalios Workplace adapts to your company's culture and your digital transformation strategy.

Top 5: Why did **Indigo Group** and **MAIF** choose Jalios for their Digital Workplace with Microsoft 365?

1. **Rapid deployment**
2. **Business application integration**
3. **Customized solution**
4. **Personalized user experience**
5. **Mobile application**
