SPARK365

Powered By Calsoft Systems

THINKING DIFFERENTLY

Our Vision:
To make powerful accounting software accessible to small (growing) businesses.

About Spark365:

We recognized that there are small businesses who could benefit from a powerful financial software like Microsoft Dynamics 365 Business Central, but did not need the rich consulting and customizations required of larger, complex companies. These small businesses are lean, resourceful and could use a rapid, affordable setup. They needed a roadmap, some guidance and some tools so they could get the system up and running smoothly and start seeing benefits.

Spark365 is backed by Calsoft's proven experience, but designed especially for you -- the small (growing) business.

A SIMPLER WAY TO DO ERP

HOW IT WORKS

Spark365 makes setting up your ERP easy!

Follow four simple steps to get started.

1. **Pick a Dynamics 365 Business Central License**
2. **Pick a Spark 365 Kit**
3. **Pay easily by credit card on our online store**
4. **Get started on setting up on Spark365**
