ABOUT THIS SERVICE

Difenda's Professional Security Service delivers tailored design and seamless implementation of Defender for IoT. Our solution bridges the gap between IT and OT security by integrating Defender for IoT with Microsoft Sentinel, enabling enterprise-wide security management and reporting. Benefit from our certified and highly skilled Microsoft Security experts who will support you every step of the way, from designing to implementing and deploying Defender for IoT and Microsoft Sentinel.

BENEFITS

- Gain better visibility with enhanced logging.
- Unify your IT and OT security environment.
- Minimize risk by attaining cross-environmental visibility.
- Save time and resources with a centralized platform.
- Bridge security gaps using your existing Microsoft Security investment, reducing additional costs.
- Ensure compliance with audit requirements by fortifying your security measures with an advanced SIEM solution.
- Maximize Microsoft Security ROI.

WHO WE ARE

As the winner of **Microsoft Canada's Security Impact Award**, Difenda stands as the most trusted provider of Microsoft Security services. Difenda accelerates, performs, and validates your Microsoft Security technology, meeting you wherever you are on your cybersecurity journey to maximize your outcomes.
