ARINCO

MIGRATE TO GITHUB THE RIGHT WAY.

Accelerate your DevOps modernisation by migrating to GitHub.

ACCELERATE YOUR DEVOPS MODERNISATION TO GITHUB WITH ARINCO'S MIGRATION DONE RIGHT FRAMEWORK

GITHUB MIGRATIONS DONE RIGHT

Modernising and migrating your existing application or infrastructure code and pipelines to the best of breed platform can be challenging for organisations. With Arinco's expertise in GitHub, DevOps technologies, and as an accredited GitHub Migrations partner we make this easier for you using our Migration Done Right framework.

WHY CUSTOMERS USE THE GITHUB MIGRATIONS DONE RIGHT ACCELERATOR

- Leverage guidance with GitHub onboarding and migration paths for code and pipelines
- Benefit from a roadmap to GitHub's rich feature set unlocking modern automation and security capabilities

- Make the leap from your current DevOps tooling with the GitHub Migration Done Right framework to steer the way
- Modernise legacy DevOps tooling by migrating to a platform that developers trust

ONBOARD AND COLLABORATE

Understand key strategies to onboard your code repositories to GitHub.

Work seamlessly across your organisation with GitHub Projects, Issues, and discussions designed for tracking deployments and collaboration.

Understand how to best plan your deployment and redefine collaboration between teams.

EMPOWER DEVELOPMENT

Get developers up to speed quickly with the platform they already know and trust.

Leverage the GitHub marketplace and open-source software to enhance integrations into your code.

Increase velocity and empower your developers to start working quickly and effectively.

AUTOMATE AND OPERATE

Build CI/CD pipelines to automate the deployment of your code with GitHub Workflows and GitHub Actions.

Improve and maintain the quality of your code by leveraging GitHub Advanced Security features to identify issues before they hit production.

Automate, operate and secure every step of your deployment utilising the GitHub platform.

Arinco achieves the best outcomes by amplifying, partnering and working with your existing teams
