Bring Microsoft Teams Experience to the Next Level

PRO is a suite of Microsoft Teams apps that add more features to Teams. The apps are designed to reduce the employee's cognitive effort when switching between apps, and integrate seamlessly with Teams, Power Automate, Outlook and Viva Connections.

Agree that since the shift to remote work, there are missed opportunities to collaborate with others[1]

PRO apps make collaborating easier and reduce the time toggling between apps.

Create a team calendar, share your passwords, store your shared contacts, manage your office spaces, and more. What a team needs to stay synchronized and focused on Teams.
