About Audax Labs:

Audax Labs is an innovation-driven technology solutions and consulting company. We help global customers grow and thrive in the digital ecosystem. With our deep industry knowledge, talented workforce, and innovative solutions around Azure Cloud, Azure IoT Hub, Azure Cognitive Services, Azure DevOps, Azure Data Lake, Apple/Google/Here Maps, iOS: Swift, Android: Kotlin. We help customers enhance their digital experience, improve revenue, and achieve operational excellence.

Service overview

The Audax Labs DocuLens OCR Engine represents a robust enterprise OCR solution designed to extract text from documents residing in a wide range of customer data repositories, including both legacy storage systems and modern cloud platforms like Azure Storage. This OCR Engine is equipped to handle various standard image and document formats, encompassing PDF, JPG, PNG, BMP, TIFF, and GIF. The DocuLens OCR solution also includes a user-friendly System Management Unit (SMU) interface, facilitating the administration of cluster and worker instances.

System components and features

Following features are offered by Doculens OCR solution.

- System Management Unit to control OCR worker instances.
- Advance Reporting, Monitoring and Log analysis services.
- Multi-language support.
- Easy integration with any upstream and downstream system using REST API/Kafka messaging services.

Use Case Scenarios

Extract text from PDF/JPEG/TIFF/GIF files stored in modern cloud platforms like Azure Storage, Hitachi Content Platform, CIFS shares and NFS shares.

What our customers are saying

I just wanted to let you know how much I appreciate the leadership and expertise DocuLens OCR Solution team has brought to the product.

I am looking forward to many more successes!

Thank you again!
