Modernize Your Legacy Apps & Technology

About Enkaytech:

Enkaytech is a forward-thinking technology company dedicated to delivering innovative solutions that empower businesses to thrive in the digital age. With a commitment to excellence, Enkaytech stands out by offering a client-centric approach that focuses on innovation, collaboration, and sustainability.

Our team of experts, spanning software development, cloud computing, AI, and cybersecurity, ensures that we can provide holistic solutions tailored to the unique needs of our clients.

Our primary customers include large enterprises seeking IT modernization, small and medium-sized businesses aiming to streamline operations, startups looking to scale rapidly, and government agencies in need of improved public services and data security.

What we offer

- **Custom software development:** Enkaytech can help you develop custom software applications for your business needs that can run entirely in the cloud or hybrid applications.

- **Cloud migration**: Enkaytech can help you migrate your existing applications and data from on-premises or other cloud platforms to Azure.

- **Cloud integration:** We can help you connect your applications with other systems and platforms using technologies such as Azure Logic Apps, Azure Service Bus, Azure API Management, and Azure Event Grid.

- **Cloud security:** We can help you protect your data, applications, and workloads in the cloud using tools such as Azure Active Directory, Azure Security Center, and Azure Sentinel.

What our customers are saying

"Enkaytech dove in and delivered a solid complex program. Scheduling and staffing were periodic challenges on both teams, but all were overcome with knowledge transfer and persistence. One of the biggest challenges was data cleanup from 40 years, cleaning, realigning, and adhering to new rules to be enforced. Enkaytech guided us and helped in this effort outside of the software build process."

Paula, Director of Finance

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
