

Unlock the *Future* of Business with D365 Business Central.

Dynamics NAV to Dynamics 365 Business Central Upgrade

As of 2023, Microsoft has ended mainstream support for all Dynamics NAV versions. At this time, you should prepare to migrate to a more robust, cloud ERP system that can grow with your business.

Business Central – one of Microsoft’s newest and more modern ERPs – evolved from Dynamics NAV, making it the most obvious choice to replace your legacy Dynamics NAV system. It offers capabilities similar to Dynamics NAV in addition to many other features, including cloud deployment, built-in reporting, and AI-powered automations.

GraVoc is here to help make your transition to Business Central smooth and seamless!

Top Reasons to Move from NAV to D365 BC:

- ✓ Connectivity across accounting, sales, purchasing, inventory, project management, and more.
- ✓ Modern, easy-to-use interface.
- ✓ Cloud-based software.
- ✓ Rich ecosystem of apps and partners enables flexible customizations and integrations.
- ✓ Real-time visibility into business performance and financials with built-in dashboards and reports.
- ✓ Machine learning and AI capabilities allow for workflow and task automations.
- ✓ Streamlined software updates.

Upgrading from Dynamics NAV to Dynamics 365 Business Central is a series of steps that must be performed and tested in sequence for the software to perform properly. Like the application itself, custom forms and reports must also be upgraded sequentially to ensure the system will perform as required in the upgraded environment. Below is a high-level overview of our process.

Our Process:

Why Choose GraVoc?

30+ Years of Experience

Our team has successfully completed hundreds of Microsoft Dynamics 365 implementation projects, delivering tailored and cost-effective solutions for our clients. We have a solid understanding of each platform's capabilities, allowing us to provide informed advisory on what a migration to Business Central will look like for Dynamics NAV users.

Microsoft Solutions Partner for Business Applications

Previously a Microsoft Certified Gold Partner, GraVoc is now a Microsoft Solutions Partner for Business Applications. Our company has invested heavily in the training of our team, resulting in hundreds of certifications, such as Dynamics 365 Business Central Functional Consultant Associate.

Objective Product Recommendation

At GraVoc, we believe that our business is your success, so we are always looking out for our customers' best interests. Through a detailed business process review, our team will thoroughly evaluate and understand your processes to provide an objective product recommendation to deliver the results you need.
