

Azure Vision & Scope

Initiate the transformation of your business

Azure Vision & Scope takes you from considerations to a complete charter and full roadmap to transform your business with Azure.

1. Definition of an Azure **vision & strategy**, based on your business needs and requirements
2. Identification and prioritization of activities, which fulfill the vision & strategy, compiled into a high-level design; a complete **roadmap** to transform your business
3. Complete list of tasks broken down to activities, purpose, description, estimated hours – including your contribution and **investment**

VISION & STRATEGY

ROADMAP

INVESTMENT

Our process builds on a high level of involvement, and it's recommended that stakeholders from IT and business participate to gather inputs, define a roadmap and get the transition started.

A unique process

- Based on Microsoft best practice, refined by Fellowmind and validated with countless customers
- Tight but interactive process with high involvement – guided by an experienced specialist
- The result is a prioritized road map and an investment overview – with all the recommended activities to build an Azure foundation and start your digitization journey
- This provides you with the basis and principles, which guides you through the subsequent activities
