**Offer overview**

Power Platform Maturity Assessment

Ready your organisation to automate, simplify and streamline your business processes with the Microsoft Power Platform.

# We are Engage Squared.

Specialists in **<people> friendly technology.**

Our mission is to make work better. We are one of a small number of technology consultancies in APAC that provide end-to-end support for our clients, helping to tackle issues ranging from employee experience, business process automation, compliance and records management, technology adoption and more.

From design, to technical build, our team of experts use their broad range of skills across project delivery, cloud strategy, user experience design, governance, agile development, change management, and security to help our clients get the most of technology.

We specialise in a range of technologies, and partner with leading providers such as Microsoft, ServiceNow, AvePoint, Glint, SWOOP Analytics and many others. We take partnerships seriously and were proud to be named the **2022 global winner of the Employee Experience Microsoft Partner of the Year award.**

Power Platform Maturity Assessment

What is the Power Platform Maturity Assessment?

An assessment designed to analyse your Power Platform maturity levels, providing you with the insights, controls and recommendations needed to drive real value from the Power Platform.

The goal of the **Power Platform Maturity Assessment** is to support you think through how you can improve your current capabilities and prioritise activities, according to your business requirements. These decisions should be based not just on the technology's capabilities, but fit into your broader, digital transformation strategy.

The assessment follows our custom adoption model, with each stage describing the states of individual disciplines, such as strategy and vision, governance and many more.

Analyse your current Power Platform landscape

We'll take a deep dive into your environment and perform an analysis, alongside your IT stakeholders, mapping out the landscape and identifying opportunities to align with best practice.

Explore the Art-of-the-Possible with the Power Platform

We'll showcase and pinpoint scenarios that can result in increased efficiency and productivity within your platform.
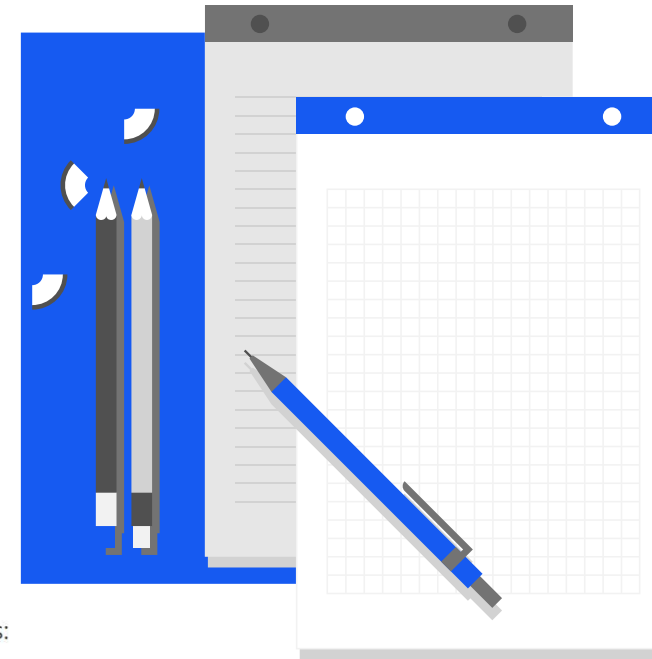

Prioritised governance and adoption recommendations

Highlighting key themes and findings, recommending areas for improvement, such as quick wins through to first successes and business transformation initiatives, and how this fits into your broader digital strategy.
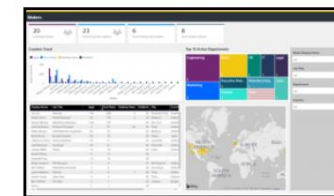

Power Platform Maturity Assessment

The assessment consists of a series of workshops with your stakeholders to analyse your environment, taking into consideration your current strategy, governance models, roles and responsibilities, technical capabilities across the organisation, and community activities
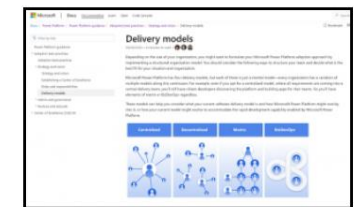

Opportunities:

Organize training events, hackathons and lunch & learn sessions:

Find and nurture champions, recognize early success

Get key sponsors and teams on board as you review the roles and responsibilities needed to execute your Power Platform adoption.
