 **Cytex platform**
Highlights of the Cytex Unified Resilience platform and features

 **SMB focused**
Cytex is designed to be budget, time, and people friendly

 **Compliance & Cybersecurity**
Cytex combines compliance and cybersecurity in a unified platform for a future proof solution

 **Schedule my demo**
Schedule a demo and elevate your security posture with Cytex

 **Network Security**

-  DNS firewall
-  Block phishing sites
-  Block malware sites
-  Block malicious domains

 **Cloud Security**

-  Support for AWS, Azure, GCP
-  Auto discover assets and accounts
-  Identify misconfigured settings
-  Continuous protection for all assets

 **App Security**

-  Identify misconfigured apps
-  Index sensitive information
-  Data loss prevention
-  Support for Teams, Slack, AD, 1-drive, Gsuite, Dropbox, Zoom

 **DevSecOps**

-  Ensure safe coding practices
-  Find embedded secrets and credentials
-  CI/CD integration
-  SBOM generation

 **Compliance**

-  Shorten attestation time to weeks
-  Support for SOC 2, NIST CSF, NIST 800-53, HIPAA, PCI, ISO-27001, CMMC, CPRA, GDPR, FINRA, OFDSS
-  Library of pre-vetted policies

 **EDR**

-  Automated protection against malware and threats
-  Support Incident response activities
-  Threat hunting
-  Agent supported on Linux, MacOS, Windows

 **Data Supply Chain Security**

-  Discover connected data partners and apps
-  Identify at-risk vendors and data partners
-  Threat surface detection
-  Risk score data exchange partners

 **MDM**

-  Manage device fleet
-  Enforce policies
-  Discover vulnerable apps
-  Remote lock and wipe

 **HRIS Integration**

-  Integration with 40+ HR systems
-  Support easy onboarding/offboarding
-  Use as source of truth for employee identity

 **Zero Trust**

-  Reduce risk, and enable secure access
-  Secure Wireguard VPN tunnel
-  Support for Linux, MacOS, Windows, iOS, Android
