

VIRTUAL DAYS – SUSTAINABLE MEETINGS AND EVENTS

About Virtual Days:

Virtual Days mission is to accelerate the world's transition to sustainable meetings and events. We work closely with our clients to understand their goals, offer personalized solutions. With our enterprise-level security and compliance measures, you can trust us to handle your event data with the utmost confidentiality and protection. We are committed to providing the tools and support you need to create memorable events.

What we offer

With Virtual Days you can host your green meetings and events in worlds that blend seamlessly with reality. With the help of photographs and video, we create a digital twin of your venue and people. Using state-of-the-art technology and a mixture of audio-visual software, we can create a unique, custom, and visually appealing environment for your virtual or hybrid events, accessible to all, from any browser, on any device. Indulge in an immersive user experience that will WOW your audience without any downloads!

We extend our virtual event solutions for organisations in a wide variety of ways; These include recruitment, employer branding, internal HR processes, onboarding, internal career mobility, open days, training days, global fairs, and virtual office spaces. The possibilities are endless.

What our customers are saying

"We've been running virtual fairs with Virtual Days for years, and all I can say is that their product is impressive. The chat feature works seamlessly, and all 3D animations are a great addition. The support and tech teams are reactive and always happy to help - I believe VRD is the best platform in the online events market. I can't recommend enough."

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
