

Microsoft Entra – IAM Review and Assessment

Streamline your identity management and enhance your security with insights

Our meticulously designed offering provides a detailed analysis of your organization's identity hygiene to maintain a **Secure Identity** posture

Prevent Unauthorized Access

Secure Collaboration

Efficient Resource Management

Trust and Reputation

Our assessment encompasses a broad spectrum of Microsoft Entra features, including but not limited to identity protection, multi-factor authentication (MFA), Passwordless authentication, Windows Hello, entitlement management, zero-trust posture, single sign-on (SSO), B2B collaborations, B2C interactions, hybrid device management, third-party applications, conditional access policies, privileged identity management (PIM), and Microsoft Entra Connect Health.

Our comprehensive assessment will provide:

- Microsoft Entra Tenant Review
- Assessment Report
- Tailored Recommendations
- Best Practices Alignment
- High-Level Roadmap

Our deep understanding of Microsoft Entra's robust capabilities will help you optimize your IAM strategy, implement best practices, and create a roadmap for your user identity services and access to data and applications. We will help your organization enhance its security and drive the usage of Microsoft Entra and its workloads.
