Data & AI and Digital App Solution Designated Partner

Global System Integrators: Global Companies that specializes in bringing together component subsystems into a whole and ensuring that those subsystems function together, a practice known as system integration.

IT Consulting Services: are Companies that help clients assess different technology strategies and, in doing so, align their technology strategies with their business or process strategies. These services support customers' IT initiatives by providing strategic, architectural, operational and implementation planning.

Staffing & Workforce Solutions: are Companies that provide Staffing and/or Workforce services & solutions that include temporary staffing, permanent placement, career transition, re-skilling and talent development, as well as outsourcing and consulting.

AI + Copilot Technical Advisory Workshop

Overview

The Maureen Data Systems' Artificial Intelligence plus Copilot Technical Advisory Workshop is a three-day engagement (covering 24 hours), intended to provide experienced and skilled guidance both in the explosive area of Artificial Intelligence but also how Microsoft's new Copilot solution can and is impacting today's enterprise.

During this workshop, you will be led by an experienced Maureen Data Systems AI engineer as well as an IT industry professional who will provide technical AI consultation as well as technical Microsoft Copilot advisory work sessions across three milestones.

AI + Copilot Technical Advisory Workshop

Milestones

Milestone 1 | “Envisioning Your Artificial Intelligence-Powered Organization”

Milestone 2 | “Defining Your Artificial Intelligence-Powered Organization”

Milestone 3 | “Artificial Intelligence-Powered Organization, Consultative Work Sessions”

AI + Copilot Technical Advisory Workshop

Enterprise artificial intelligence advisory service including both business and engineering resources that help clients assess their IT needs and formulate system implementation plans.
