# Migration with the AlfaPeople methodology

We dedicate time to comprehending your business needs, creating a tailored migration strategy and timeline that won't disrupt your daily operations.

## **FASTER**

Reduce time and costs with our methodology centered on the essentials. Our experts quickly identify in your system what you're currently using and what you need. We closely monitor potential savings and efficiency enhancements in your company. The AlfaPeople methodology eliminates lengthy analysis phases, swiftly getting you up and running in the cloud!

## **MORE INNOVATIVE**

Enhance the functionality with customized extensions! Following your initial experience with Microsoft Dynamics 365, we implement additional functions and digitalization options tailored to your specific needs – in clearly defined sprints. This leads to quicker advancement and optimized costs.

## **MORE EFFICIENT**

Minimize effort and relieve your project team with AlfaPeople! Even during the pilot phase, you can use Dynamics 365 and acquaint yourself with the new system's advantages. The emphasis is on the activities, processes, and data you use and need. This ensures maximum efficiency and speed without requiring your company to halt operations.

## **WELL PLANNED FROM A TO Z**

Discover your journey to the cloud, meticulously planned from start to finish with AlfaPeople! At each step, the project's scope and effort are clearly outlined. With us, you are always aware of exactly what you will receive – and when. Our team of experts, who will be with you from the beginning, will guide you throughout the process. With AlfaPeople, your migration is exceptionally quick, user-friendly, and cost-effective!

## **EXCLUSIVE BENEFITS WITH US**

AlfaPeople's Cloud Migration experts collaborate proactively with your business leaders to devise a clear and cost-managed route to the cloud. AlfaPeople Cloud Migration is a customer-focused program shaped by our extensive experience and industry know-how, targeted at harnessing both immediate and enduring advantages of your cloud-based CRM or ERP.
