Innovation Workshop: Application Modernisation

Innovate

Art-of-the-possible
Explore the power and impact of cloud-native technologies like containers and microservices

Relevancy
Discuss the specific challenges facing your business, so outcomes are relevant and actionable

Strategise
Make informed decisions on your technical strategy and use funding options to accelerate innovation

Workshop structure

- Understanding app modernisation, cost modelling and target state identification

- Exploring the 6Rs of app modernisation and the strategies for each

- Building your app modernisation roadmap: how to bridge the gap between your current and target state

What you can expect

- ✓ Insight and steer from an experienced cloud specialist

- ✓ Two-way discussion based on your specific business context

- ✓ Clarity on next steps

- ✓ The building blocks for your business case
