

Providing the assurance and control over your processes

Assurity Suite is power to you!

Our new versatile Microsoft Azure ready platform provides the assurance and control over your documents, communications, investigations, compliance, information and processes within the organisation. A truly end-to-end information management solution, it is the surety you need that documents and information can move inside the organisation and can evolve and grow as your organisational needs evolve and change.

At Bay Technologies we are transforming the way you do business and bringing you truly modern solutions which change the way you do business for the better.

Assurity is highly customisable, opening the doors for success

The Assurity Suite modules started life as standalone, commercial off-the-shelf products that are fit-for-purpose and consumed as Workflow-as-a-Service (WaaS) applications, typically hosted in MS Azure. Each module is highly configurable and can be tailored to suit your business practices whilst dramatically improving them. Tracking SLA's, Management Reporting Dashboards, Mobility solutions are only a few of the enhancements available out of the box.

Assurity suite modules:

- Ministerial and Executive Correspondence Management (MINCOR)
- Investigation Management and Compliance (CIRAM)
- Human Resources Management (HR)
- Travel Management (TM)
- Complaints Handling and Management (CHM)
- Contract Management (CM)

Let us show you how

Since 2002, we have given government at all levels access to the right information at the right time for better informed decision making. Contact us today to discover how we can help you.

Enabling greater efficiency and reliability for government

MINCOR is an enterprise correspondence workflow suite that keeps processes moving and ensures no item or activity 'falls between the cracks'.

Beginning with an off-the-shelf product, MINCOR provides you with the tools to reinforce your relevance, demonstrate your competence and build confidence from the people you work for.

The existing workflows within MINCOR are the result of two decades dealing directly with government. MINCOR workflows can be customised to your specific needs.

Once implemented, enhanced support and dedicated application administration services empowers you to enable greater efficiency and reliability.

Discover how to map your own journey.

MINCOR can empower you further with a suite of licenced modules aimed at compliance with legislative and administrative requirements including Estimates, Parliamentary Briefing Notes, and Requests for Information.

MINCOR offers:

- Commercial-off-the-shelf product
- Proven, robust application
- Configurable data and user security levels
- Short implementation timeframe
- Dedicated support and administration services
- Ongoing access to updates and enhancements
- Hosted or on premise
- Can be federated across multiple departments or agencies
- Quality assured processes and controls
