Patch 🚶 readiness.
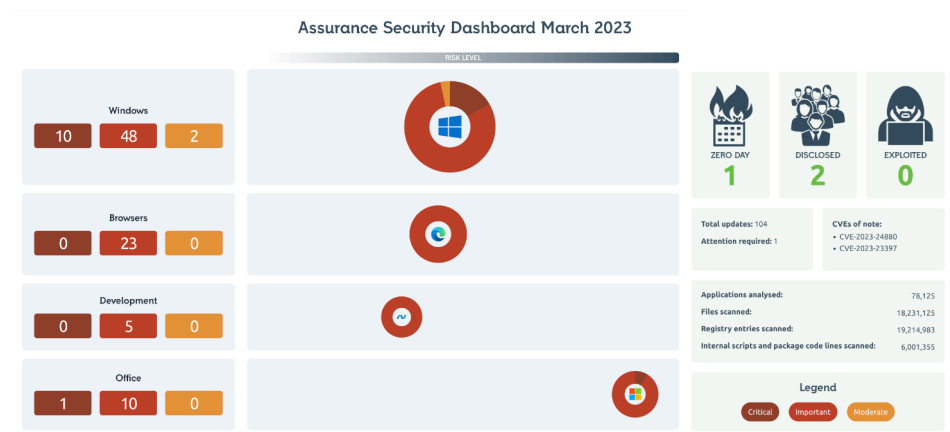

Test your entire application portfolio, with guaranteed results.

Automatically, every day, every OS, every app for every change.

"Continual updates require constant vigilance and rapid response."

- Test your entire application portfolio
- Simple, one-step import process
- Algorithmic tests deliver results - Quickly!
- Runtime tests deliver accurate assessments
- Easily record, replay tests

Patch Readiness
Application Testing Assessment

Upload your entire application portfolio and get guaranteed results from our automated application testing platform

$50 per application, per year

- Microsoft Updates and Patches
- Application Updates
- Windows and Office Upgrades
- Dependency changes
- .NET, JAVA updates

Readiness delivers:

Rapid Results

Algorithmic assessments deliver rapid (almost instantaneous) predictive results. Excellent for "what if" scenarios and project planning.

Less Risk

Readiness runtime analysis installs and loads each application (install, runtime, uninstall) to deliver real-world results. Guaranteed.
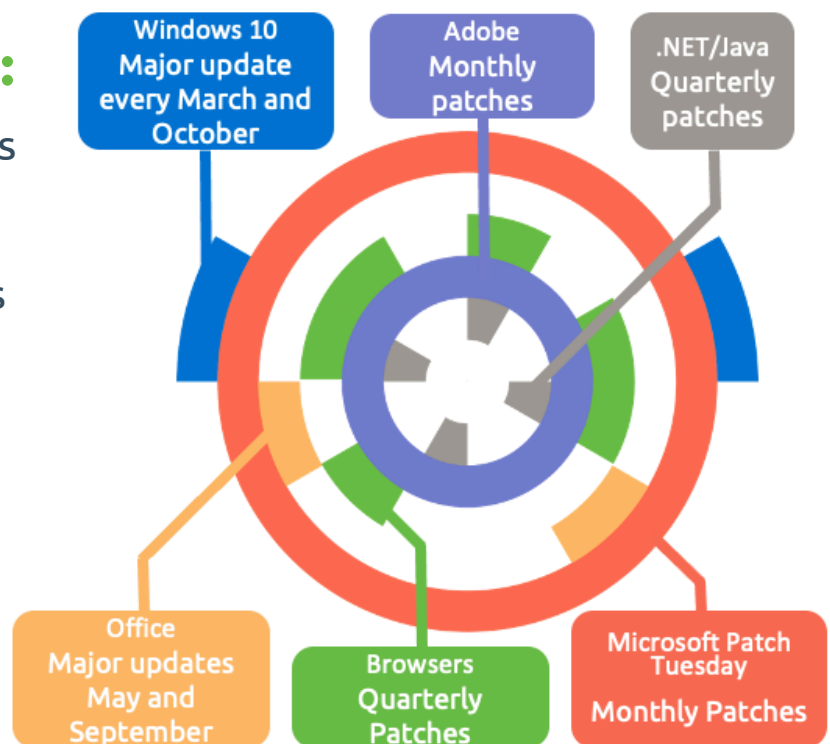

Reduced Cost

Manually testing each application is expensive both in time, experienced resources and money. Use the Readiness testing platform to maximize your testing profile, while reducing costs.

Faster Deployments

Test with Readiness and deploy with confidence. Reduce your reliance on delayed testing cycles (test rings) when you can deploy updates and changes with guaranteed results.

When you have to:

- Deploy Microsoft Patches
- Application updates
- Microsoft Office updates
- Update security profiles
- Deploy 3rd party updates
- Update your middleware

Windows 10 Major update every March and October

Adobe Monthly patches

.NET/Java Quarterly patches

Office Major updates May and September

Browsers Quarterly Patches

Microsoft Patch Tuesday Monthly Patches

Test with Readiness and deploy with confidence.

- **Zero infrastructure required.**
- **No client requirements.**
- **Support for custom builds, rules.**
- **Consumption-based license model.**

Change faster, with less risk.

readiness.
