Change.
Get ready for it.

- Windows Updates
- Office Updates
- MSIX/App-Attach
- Security Changes

readiness

Windows 11 Assessment

Zero infrastructure required

- Assess and remediate your applications

- Corporate standards compliance
- Dynamic queries and reports

- Microsoft MSIX App-Attach

- Microsoft Office dependency assessment

- Microsoft Updates

This changes everything.

Readiness delivers

Compatibility

Your applications have to work on Microsoft Windows 11 and Server 2022. Get detailed analysis on potential compatibility, dependency or compliance issues.
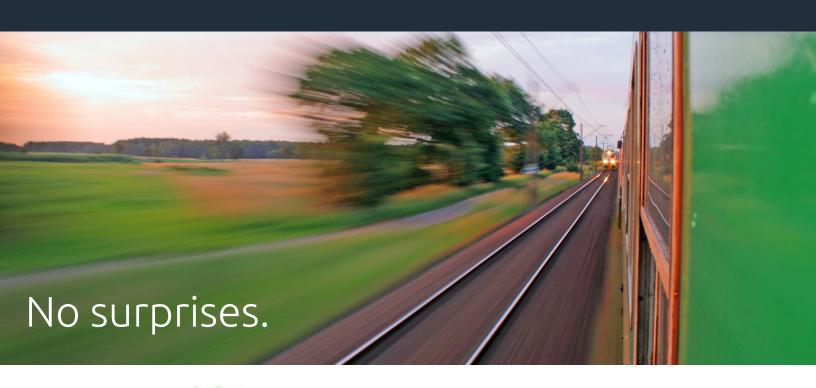

Security

Keep your application portfolio up to date and also ensure that you have the information you need to plan for potential conflicts or patch issues.

Suitability

Choose the platform for your portfolio and ensure that each application is right for your chosen virtualization technology.

Quality

Compliance with corporate standards ensures a faster, more consistent deployment. Troubleshooting is quicker, and future changes and updates can be performed with confidence.

No surprises.

- Reduce the cost of changes
- Reduce the risk of updates
- Reduce the risk of virus/malware

- Modernize your applications
- Automated documentation, auditing
- Agile process platform

- Zero infrastructure required
- No client requirements.
- Support for custom builds, rules
- Consumption-based license model. Pay for what you use.

Change faster, with less risk

readiness.
