

CONSULTING

Analytics Jumpstart

Accelerate adoption of Power BI and build a proof of concept in just a few days.

No waste. No friction. No inertia.

Not your average consultants.

Forget what you know about BI consulting. We're disrupting the industry by delivering impact in the time other firms would still be burning your budget on requirements gathering.

Our consultants will work closely with a small group of your stakeholders in an agile development exercise – lean and mean, no wasted effort.

Robust results on accelerated timescales: software advances have made it possible. We'll bring it to life for you.

A refreshing approach:

Compressed

Bypass weeks of requirements gathering. Our proven approach cuts to the chase: we're delivering actionable insights when others would still be writing specs.

Transparent

No surprises, no waiting in suspense to see what you're paying for. We collaborate closely with your team and build your solution in real time.

Impact-driven

Improvement is the goal, not merely being informed. We quickly digest what your business needs to achieve and work backwards from that goal.

Open

No secrets here. We educate you on how your dashboards work under the hood, empowering you to make some - or all - future modifications yourself.

Fast. Proven. Cost-Effective.

Our Methodology

Align

The "mind meld."
Conversation, sketches,
and whiteboards replace
expensive and ineffective
requirements docs.

Assemble

The fun part. You won't
believe how much a
report or app can develop
even in a day, or how
much undiscovered
opportunity lies in wait.

Assess

The moment of truth. Is
there anything to add?
Are you positioned to
take it from here? These
are the questions, but
there will be no mysteries.

Activate

The payoff. Put your new
dashboards (or other outputs)
into action. Monitor impact,
improvement, and engagement.
Plan your next win.

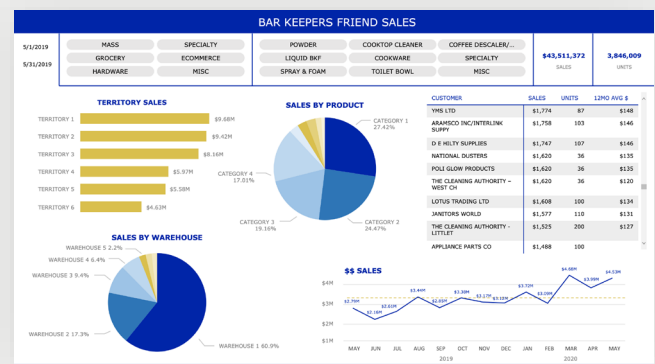

Our partnership with Bar Keepers Friend®

Our BI dashboards delivered data insights that drove real results. We empowered Bar Keepers Friend to:

Respond to 120% demand spike – and redirect output – in real time

Reclaim over two work months per year from ad-hoc data requests

Data altered to protect client confidentiality.

AGENDA

Analytics Jumpstart

● ● ● ● Pre-Session

An hour-long discovery call to identify target project or discuss criteria for potential projects. Conversation, sketches, and whiteboards replace expensive and ineffective requirements docs.

● ● ● ● Intro

Meeting with key stakeholders to align on target project, discuss objectives, and understand how the project supports the organization's overall business and IT goals.

● ● ● ● Core

Co-development work on the project. One of our consultants collaborates with a small group of analysts and stakeholders to rapidly build intelligent, interactive dashboards - while equipping your team with critical knowledge and skills.

● ● ● ● Close

Debrief and discussion of next steps. Put your new reports (or other outputs) into circulation. Monitor engagement, improvement, and impact. Plan your next win.

Leave with: A roadmap that shares the key milestones to bring your project to the finish line and guidance around next steps.

This format is based on our experience of what works best to ensure both a meaningful introduction to Power BI and a practical outcome that puts the organization on track to solving a real-world problem. Within this framework we can customize elements to suit your specific needs.

About P3 Adaptive

Power BI has no equal, and neither do we. P3 Adaptive is a premier Microsoft Data Platform consultancy. Our experts channel your business-critical data to generate insights and drive outcomes throughout your organization.

“ At P3 Adaptive, we are known for our down-to-earth, human teaching style which makes difficult concepts easy to understand.

ROB COLLIE, FOUNDER & CEO

Unmatched experience:

In his 13 years at Microsoft, Rob Collie led the BI-focused capabilities in Excel and was subsequently one of the founding engineers on Power BI. That insider's perspective led him to found the P3 Adaptive consulting firm in 2013. He is the author of the world's #1 selling Power BI book.

Consulting

As a new wave of technology goes mainstream, you need the right kind of help: Nimble. Efficient. Human.

Training

We deliver the absolute best trainings in the business. Because nothing is more valuable than your time.

Governance & Adoption

Business-driven analytics are now a crucial pillar in any organization's enterprise strategy, but balancing agility with responsibility requires a careful mix of people, policy, and technology.

Data Visualization

Make your reports look as powerful as they are. A dashboard redesign gets teams engaged and drives critical usage.

“ By the end of the first day, we already had dashboards worth showing to the team and were already making discoveries about our business that we never had before.

M. SELIG

“ I really appreciate your attention to detail and your unassuming approach. Mind blowing stuff! My life will be so much easier now.

GURUPRASAD D.

“ [P3 Adaptive] helped me tremendously with solving complicated problems that would probably still be unsolved today.

T. HARDY
