

NAVIPARTNER

Ready for growth with unified commerce

NP Retail is an all-in-one retail system built directly into Microsoft Dynamics 365 Business Central. It is the best fit for the most important aspects of retail business such as sales and purchase, customer experience, inventory management, finance and reports.

NP Retail is easy to deploy, use and customize. It enables retailers to unify all parts of their business, make better decisions and deliver excellent customer service.

Sales assistants can accept payment by cash, debit cards, foreign exchange, gift cards, loyalty cards, mobile and contactless. The system also supports more than 200 payment terminals worldwide.

Hosted in the Microsoft cloud the POS system has an uptime of 99,95%. Customers can take advantage of services such as Power BI or Mixed Reality and the NP WMS app for inventory management.

Benefit from 100% updated sales and customer data

Happy customers
Checkouts at the POS counter or on an mPOS

NP RETAIL

“

“We chose NP Retail because it gave us the opportunity to simplify and streamline our IT in the cloud. It has made it easier for us to handle operational support and ongoing development, and we are now at ease with our IT operations and feel that we’re ready for the future.”

John Lange,
CEO, Spejder Sport

”

Retailers navigate in a complex world of constantly changing digital platforms and market trends. NaviPartner’s solutions help retailers scale their businesses by unifying their shops, ecommerce, and warehouse management. We are not saying it’s easy; but as your partner it is our mission to make unified commerce uncomplicated.

With our apps you can provide solutions are 90% standardized. Ultimately this makes your solutions better and your customer's everyday life simpler. As your knowledge partner in retail, we navigate you through the complexity of creating critical digital infrastructure thereby making it less complex. And a whole lot more profitable.

We would love to hear from you!
