Master Report Governance

with Control Room for Power BI

DEMO REPORT AVAILABLE

Control Room for Power BI
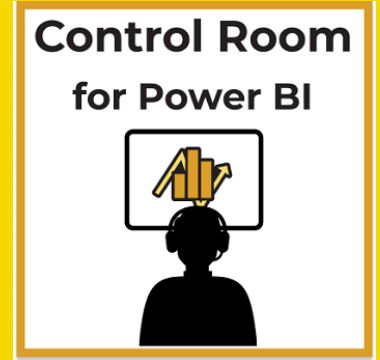

Monitoring, Auditing

&

Governance

The Control Room for Power BI is an indispensable tool for efficiently managing Power BI tenants, ideal for organizations aiming to establish a **Power BI Center of Excellence.**

It simplifies monitoring and governance, offering a clear view of workspaces, datasets, dataflows, and reports. The tool enables detailed tracking of report usage and user activity, enhances security by identifying access levels and vulnerabilities, and helps manage licensing costs by pinpointing inactive users.

Additionally, it includes comprehensive features for monitoring data refreshes and supports disaster recovery through dataflow archiving, ensuring smooth operation and improved report adoption.
