Bulletproof
## Deploying Purview Data Security
Labels & Data Loss Prevention

What is it?

The Bulletproof Deploying Data Security - Label and Data Loss Prevention consulting service provides a standard framework and process for deployment of these Microsoft Purview tools. This approach is not just a configuration exercise. Bulletproof will assess your readiness, help in your governance development, design and deploy your protection, and assist in rollout and training. Each of these components are designed to ensure greater chance of a successful deployment and to maximize adoption.

Our deployment process

The Bulletproof process will guide you by bringing our best practice approach to your design and deployment; Including stakeholder engagement, a baseline review of existing information management

APPROACH			
PLAN	**DISCOVER**	**DESIGN**	**DELIVER**
• Scope & Vision • Requirements • Stakeholders • Schedule	• Document review • Technical review • Workshops • Interviews	• Recommendations • Design • PoC	• Pilot • Implementation • Training

PROJECT MANAGEMENT, CHANGE MANAGEMENT, KNOWLEDGE TRANSFER

related policies and standards, and a technical examination of any existing setup and documentation. This is all supported by active knowledge transfer to users and technical staff.
